- L. **Income Limits, Rent Limits and Affordability:**  
The Income and Rent Limits used in the SHIP Program are updated annually from the Department of Housing and Urban Development and distributed by Florida Housing Finance Corporation. Affordable means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071 (19), (20) and (28), F.S. However it is not the intent to limit an individual household's ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.
- M. **Welfare Transition Program:**  
Should a eligible sponsor be used, the city/county has developed a qualification system and selection criteria for applications for Awards to eligible sponsors, which includes a description that demonstrates how eligible sponsors that employed personnel from the Welfare Transition Program will be given preference in the selection process.
- N. **Monitoring and First Right of Refusal:**  
In the case of rental housing, the staff or entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides the same monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of \$3,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored for at least annually for 15 years or the term of assistance which ever is longer unless as specified above.
- Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.
- O. **Administrative Budget:**  
A detailed listing including line-item budget of proposed Administrative Expenditures is attached as Exhibit A. These are presented on an annual basis for each State fiscal year submitted.

Revised April 2012

Lafayette County finds that the moneys deposited in the local housing assistance trust fund shall be used to administer and implement the local housing assistance plan. In accordance with Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, a county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan. The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5% of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(17), and eligible municipalities receiving a local housing distribution of up to \$350,000 may use up to 10 percent of program income for administrative costs.

*Lafayette County has adopted the above findings in the attached resolution, Exhibit E.*

Permits as defined in s. 163.3164(7) and (8) for affordable housing projects are expedited to a greater degree than other projects.
  - a. Established policy and procedures: The current permitting process for Lafayette County should be retained until the case load increases to such a degree that a backlog is experienced. The County believes that a backlog

Revised April 2012

would be experienced when more than 200 permits are issued per year. In accordance with the Policy of the Housing Element of the County's Comprehensive Plan, this includes the continued refining and streamlining of the existing development approval process, plus expedited plan reviews and inspections, explanatory brochures and computer programs to further refine the existing one-stop permitting and development review process and reduce the financing cost for developers.

The County takes all steps necessary not to delay the review of affordable housing developments, and should review delays begin to occur, the County institutes the practice of reviewing the affordable housing development first. This will occur when more than 200 permits are received per year.

- b. On March 27, 1995, Lafayette County adopted Resolution No. 95-R-1 amending Resolution No. 94-S-1 creating an expedited permitting process.
- c. No delays have been experienced in Lafayette County's permitting procedures.

B. Name of the Strategy: Ongoing Review Process

An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption.

- a. Established policy and procedures: The current ongoing process of review allows the county to review any policy, procedure, ordinance, regulation, or plan revision that may increase the cost of housing prior to its adoption.
- b. On March 27, 1995, Lafayette County adopted Resolution No. 95-R-1 amending Resolution No. 94-S-1, providing a ongoing process of review of any policy, ordinance, comprehensive plan, building regulation or procedure which may significantly impact the cost of housing.
- c. The County Building Department has the responsibility of performing the review procedure. The staff reviews the action and prepares a written report with recommendations prior to the adoption of the plan. The staff's review will consider the following:
  - a) Will the action increase the cost of development? If so, approximate cost. Explain how increased cost is worth negative impact on housing cost.
  - b) Will the action increase the time of approval? If so, how does benefit

Revised April 2012

of this increase in approval time compare with the impact on housing costs?

c) Does the action increase the long term development cost? If so, how do the increased cost compare with the benefits of the action?

D. According to the Building Department Director, there are no new ordinances or policy changes which might affect the cost of housing.
