Subject: Universal Cycle Tie Breakers

Steve,

I noted that the second sentence of the second tie-breaker from the 11/29/07 draft application instructions was deleted in the latest draft of the application instructions. Please note that, by dropping this sentence, it effectively eliminates all of the counties that have a deemed AMI of \$44,100 or less from competing for SAIL since all of the SAIL Only and SAIL/MMRB deals would be funded before any SAIL/HC deals. If this was not the intent of the Corporation, then I would respectfully request that the second sentence be added back to the second tie-breaker.

Thank you for your consideration.

Michael
