¹ "Development Location Point" means a single point selected by the Applicant on the proposed Development site that is located within 100 feet of a residential building existing or to be constructed as part of the proposed Development. For a Development which consists of Scattered Sites, this means a single point on the site with the most units that is located within 100 feet of a residential building existing or to be constructed as part of the proposed Development.

² "DDA ZCTA" or "DDA Zip Code Tabulation Area," applies only if any of the proposed Development site(s) is/are located within a metropolitan area which has been designated by the Department of Housing and Urban Development (HUD) as a Small Area Difficult Development Area (SADDA) and assigned a ZCTA number at <https://www.huduser.gov/portal/Datasets/qct/DDA2016M.PDF>. This can be determined by entering the applicable information at the HUD mapping software, which can be found at https://www.huduser.gov/portal/sadda/sadda_qct.html

³ "Scattered Sites," as applied to a single Development, means a Development site that, when taken as a whole, is comprised of real property that is not contiguous (each such non-contiguous site within a Scattered Site Development, is considered to be a "Scattered Site"). For purposes of this definition "contiguous" means touching at a point or along a boundary. Real property is contiguous if the only intervening real property interest is an easement provided the easement is not a roadway or street. All of the Scattered Sites must be located in the same county.
