

2018 Florida RECAPs*

Note Regarding 2018 Proposed RECAP Designations:

The race and ethnicity data in the 2015 American Community Survey 5-year estimates have many high margin of error values. As a result, Florida Housing has excluded these variables for numerous census tracts using the same methodology as 2017. Although poverty remains near its peak level overall, it has declined slightly in high incidence tracts. The convergence of these two trends leads to fewer RECAPs in 2018 than there were in 2017.

In 2017 there were 93 RECAPs. Of those, 73 remain RECAPs in 2018. Among the 20 tracts which dropped out, 8 (≈40%) dropped due to data reliability and 12 (≈60%) dropped because of declines in poverty levels.

There are also 15 new tracts which meet the RECAP criteria in the updated dataset which were not RECAPs in 2017. They are all solidly minority-majority tracts that appear to have had marginal increases in poverty and the minority population which put them over the threshold. Overall, there are 5% fewer RECAP tracts in 2018 than in 2017.

*Racially/Ethnically Concentrated Areas of Poverty have an incidence of poverty greater than 40% and a minority concentration greater than 50%. Data are derived from the average of the three most recent 5-year averages of the American Community Survey. High margin of error values are excluded.
