

2017 Florida RECAPs*

Note Regarding 2017 Proposed RECAP Designations:

The proposed 2017 RECAP designations differ significantly from the 2016 designations. The race and ethnicity questions in the 2015 5-yr average ACS data have many high margin of error values. As a result, Florida Housing has excluded this variable for many census tracts using the same methodology as 2016. Although poverty remains near its peak level overall, it has declined slightly in high incidence tracts. The convergence of these two trends leads to many fewer RECAPs in 2017 than there were in 2016.

In 2016 there were 147 RECAPs. Of those, 75 remain (proposed) RECAPs in 2017. Among the 72 tracts which dropped out, 61 (≈85%) dropped due to data reliability, 10 (≈14%) dropped because of declines in poverty levels, and 1 (≈1%) dropped because of a decline in the minority population of the tract.

There are also 18 tracts which meet the RECAP criteria in the updated dataset which were not RECAPs in 2016. They are all solidly minority-majority tracts that appear to have had marginal increases in poverty which put them over the threshold. Overall, there are 37% fewer RECAP tracts in 2017 than in 2016.

* Racially/Ethnically Concentrated Areas of Poverty have an incidence of poverty greater than 40% and a minority concentration greater than 50%. Data are derived from the average of the three most recent 5-yr averages of the American Community Survey. High margin of error values are excluded.

* *Total population identifying as other than non-Hispanic White.

2017 Florida RECAPs*

Census Tract	Poverty*	Minority**
Census Tract 15.15, Alachua County, Florida	59.9%	55.1%
Census Tract 15.16, Alachua County, Florida	46.4%	51.1%
Census Tract 15.19, Alachua County, Florida	59.6%	65.0%
