9. Under Section 120.542(1), Fla. Stat., and Chapter 28-104, Fla. Admin. Code, the Corporation has the power and authority to grant waivers to its rule requirements when strict application of the rules would lead to unreasonable, unfair and unintended consequences in particular instances. A waiver shall be granted when the person who is subject to the rule demonstrates that the

application of the rule would: (a) create a substantial hardship¹ *or* violate principles of fairness, and (b) the purpose of the underlying statute has been or will be achieved by other means by the person.

See § 120.542(2), Fla. Stat.¹

11. Compliance with the Rule would undermine the preservation and rehabilitation of affordable housing by denying the Petitioner's application for non-competitive 4% LIHTC that would be a critical resource for the Petitioner's efforts undertake the rehabilitation of the Property, rehabilitate obsolete public housing units under HUD's RAD program, and preserve existing affordable housing, despite the disclosure of all relevant natural persons of the age of majority through the eighth level. The disclosure of natural persons on the "third disclosure level" instead of subsequent levels defeats the purpose of allocating 4% LIHTC and assist in the preservation of units encouraged federally (by HUD) and the Corporation. Moreover, requiring compliance with the "third disclosure level" instead of subsequent levels accurately reflects the actual structure of the transaction and to restructure and disclose the transaction in any other way in order to comply with the Rule would make the Bond transaction legally and economically non-viable. Finally, compliance would create a substantial economic hardship to the Petitioner by altering its transaction structure in a manner that would terminate the transaction because current significant economic participants that are indispensable to the transaction would no longer be able to participate.

12. Additionally, compliance would cause a legal hardship by forcing the entities that compose the Petitioner's general partner to breach federal requirements relating to HUD's RAD

¹ "Substantial hardship" means a demonstrated economic, technological, legal or other type of hardship to the person requesting the variance or waiver. Further, "principles of fairness" are violated when the literal application of a rule affects a particular person in a manner significantly different from the way it affects other similarly situated persons who are subject to the rule. *See* Fla. Stat. § 120.542.

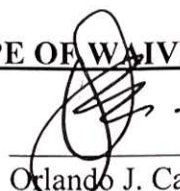

program, the Housing Act of 1937 and its appurtenant federal regulations, and various executed agreements. Moreover, compliance would cause Petitioner to incur considerable costs in obtaining financing. Furthermore, it would deprive the City of Daytona Beach and Volusia County of the preservation and renovation of much needed affordable housing serving the elderly and disabled and violate principles of fairness given the circumstances surrounding the delays are outside of the Petitioner's control.

13. Consequently, permitting disclosure of natural persons at the disclosure level beyond the third level instead of the third is necessary is accurate, preserves much needed affordable housing, and avoids unfairness and substantial hardship on the Petitioner and the Property. By granting the requested extension, the Property will be able to proceed to reach completion in the future, which will assure that 298 much needed affordable housing units remain affordable, and such a result assists the Corporation with fulfilling its statutory mandate to provide safe, sanitary and affordable housing to the citizens of Florida.

14. Further, a waiver of this Rule will serve the purposes of Section 420.5089 and the Act that are implemented by Chapter 67-21 of the Fla. Admin. Code, because one of the goals is for the federal and state allocated resources of Corporation be used to facilitate the availability of decent, safe and sanitary housing in the State of Florida to low-income persons and households. The Act (Section 420.501, *et seq.*) was passed in order to create inducements and opportunities for private and public investment in rental housing to increase and preserve the supply of affordable housing for low-income persons and households. Denial of the waiver would deprive the City of Daytona Beach and Volusia County, Florida of essential and affordable housing units. By granting this Petition, the Corporation would recognize the goal.

15. The requested waiver will not adversely affect Petitioner, the Property, any other party or the Corporation.
