SECTION FOUR SCOPE OF SERVICES

Florida Housing is designated the housing credit agency for the state of Florida under 26 USC § 42 (h)(8)(A). When utilities for a residential rental unit are paid directly by the tenant, the inclusion of a utility allowance in the gross rent of rent-restricted units is required by 26 USC § 42(g)(2)(B)(ii). A building owner, in accordance with 26 CFR § 1.42-10(b)(4)(ii)(E), may calculate utility estimates using an energy and water and sewage consumption and analysis model (energy consumption model). The energy consumption model must, at a minimum, take into account specific factors including, but not limited to, unit size, building orientation, design and materials, mechanical systems, appliances, and characteristics of the building location. Florida Housing may approve or disapprove of the energy consumption model utility allowance estimate or require information before permitting its use.

The utility consumption estimates must be calculated by a properly licensed engineer

or other qualified professional approved by Florida Housing, which has jurisdiction over owners of developments in Florida that participate in the Housing Credit Program and other affordable housing programs financed by Florida Housing. The qualified professional and the building owner must not be related within the meaning of 26 USC §§ 267(b) or 707(b). 26 CFR § 1.42-10(c) provides that the building owner must pay for all costs incurred in obtaining the utility estimates and providing the estimates to Florida Housing and the tenants.

Energy Consumption Model Utility Allowance Estimate Providers must:

A. Use an Energy Consumption Model (ECM) that at a minimum, takes into account specific factors including, but not limited to: unit size, building orientation, design and materials, mechanical systems, appliances, and characteristics of the building location;

B. Be either a properly Licensed Engineer or a Qualified Professional approved by Florida Housing (together, qualified professional) and the qualified professional and the building owner must not be related within the meaning of 26 USC §§ 267(b) or 707(b);

E. Provide the owner with an ECM study that states the effective date of the utility rates and clearly delineates customer service charges, base rates, volume charges, volume discounts, taxes, surcharges and franchise fees, where applicable, to document the utility estimates calculated for each Building Identification Number (BIN); and

F. Provide the owner with a letter that explains how the specific factors in Section Four, Item A., were accounted for in the Energy Consumption Model.
