Performance and/or Design Requirements: Contractor will provide design, hosting, and support services; training for Florida Housing staff on any updates or changes to the content management system and industry best practices; an evaluation of the website's backend deployment and configuration; and a retrospective analysis of event logs to help pinpoint and mitigate recurring issues.

Intended Source: SGS Technologie, LLC

Estimated Dollar Amount: \$19,900

Justification for Single Source Acquisition: The Progress Sitefinity Content Management System (CMS) is an industry leader in the field, but the various Sitefinity skill set(s) are exceedingly rare and difficult to staff for in small metro markets. SGS maintains these skill sets and enables us to address issues and efforts in an expedited and knowledgeable manner. SGS was a partner in the design and implementation of the FHFC public website, and their historic knowledge of operational decisions and configuration is vital to proper and comprehensive operation of the platform.
