

Questions and Answers for RFQ 2019-04 Pool of Energy Consumption Model Utility Allowance Estimate Providers

Q: Our firm charges a fixed rate per development, independent of the type of units in the development and if we need to add natural gas, water, or sewer. We also charge a different rate for an initial study compared to an update. Would it be acceptable to Florida Housing if we were to fill out Table 1, Fees, to indicate which line items are included?

A: Yes. As long as there is a dollar figure in each of the subtotal lines and a grand total at the end of the table, it is acceptable to mark the bedroom sub-items as 'included' in Table 1.
