¹"Scattered Sites," as applied to a single Development, means a Development site that, when taken as a whole, is comprised of real property that is not contiguous (each such non-contiguous site within a Scattered Site Development, a "Scattered Site"). For purposes of this definition "contiguous" means touching at a point or along a boundary. Real property is contiguous if the only intervening real property interest is an easement provided the easement is not a roadway or street.

²"Development Location Point" means a single point selected by the Applicant on the proposed Development site that is located within 100 feet of an existing residential building. For a Development which consists of Scattered Sites, this means a single point on the site with the most units that is located within 100 feet of an existing residential building.
