

## **Exhibit F - Rehabilitation Scoping Process with a Capital Needs Assessment**

The following is the procedure by which the scope of the rehabilitation will be determined for Applicants rehabilitating units as part of the proposed Application. This may include those with the Development Category of New Construction or Redevelopment (with or without acquisition), if the plan includes rehabilitation of at least one existing unit.

The Flowchart attached to this Exhibit has been designed to graphically illustrate the steps described below.

### **1. The Pre-Application Stage (Steps 1-2)**

Prior to submitting an Application, Applicants should conduct appropriate due diligence to determine whether it is physically and financially feasible to comply with the minimum requirements contained in Section Four A.8., for proposed Developments choosing Rehabilitation or Acquisition and Rehabilitation. Applicants receiving a preliminary award who are found (through the Capital Needs Assessment and Rehabilitation scoping process further described below) to be unable to meet all of the requirements of Section Four A.8.a. and c. with the sources available for the Rehabilitation, will have their preliminary award of funding rescinded.

At the time of Application, Applicants proposing any rehabilitation of units will be required to certify that the contemplated budget and available sources are adequate to meet all requirements outlined in Section Four A.8. of this RFA.

### **2. The Capital Needs Assessment (CNA) Stage (Steps 3-7)**

- a. Once the invitation to Credit Underwriting has been accepted, all Developments with at least one rehabilitation unit shall have a CNA prepared. Due to closing deadlines outlined in Rule Chapters 67-48 and 67-21, F.A.C., the CNA process will run concurrently with the Credit Underwriting process (which includes the market study and PRL, if applicable).
- b. The CNA shall be ordered by the Credit Underwriter, no later than 7 Calendar Days after receiving the credit underwriting fee(s) and CNA fee. The choice of the CNA provider will be left solely up to the Credit Underwriter, and shall be chosen from the Corporation's approved list of qualified providers.
- c. Once the CNA has been ordered, the CNA provider will contact the Applicant to obtain basic information regarding the current physical condition of the property. The Applicant (or designee) shall answer the CNA provider's request for information within 7 Calendar Days of receipt. Further, a physical inspection of the property shall be scheduled to take place between the CNA provider, the Applicant (or designee), the Corporation (if desired) and the Credit Underwriter (if desired), no later than 30 Calendar Days from the ordering of the CNA. No less than 7 Calendar Days prior to the physical inspection, the Applicant shall ensure that original construction plans, if

available, and a history of major repair expenditures covering at least the most recent 5 years, have been delivered to the CNA provider.

d. At a minimum, the CNA provider will:

- (1) Review available documentation from the original construction and previous rehabilitations and current or planned improvements to the greatest extent possible:
  - Site survey;
  - Appraisals;
  - As-built drawings or record drawings;
  - Previous accessibility surveys;
  - Planned Capital Improvements;
  - Planned maintenance or replacement;
  - Previous reports on Property condition;
  - Existing Physical Deficiencies and pending work;
  - Warranties for construction products, appliances and equipment;
  - Preventative maintenance requirements;
  - Operations and maintenance plans;
  - Maintenance reports and contracts; and
  - Previous repairs, improvements or replacements.
  
- (2) Make all appropriate inquiries to obtain and review any relevant information relating to the Property from the local governmental agencies and departments having jurisdiction over the Property. Documentation should include, to the greatest extent possible:
  - Certificates of Occupancy;
  - Inspection records and certificates;
  - Reports of existing building / fire code violations;
  - Reports of existing regulatory, health or zoning violations; and
  - Documentation of ongoing or pending litigation on Physical Conditions of the Property.
  
- (3) Interview Applicant's point of contact and/or maintenance staff via a Pre-Site Visit questionnaire (Appendix E of the CNA Guide) to acquire information about preceding or pending repairs, replacements and their costs, level of preventive maintenance exercised;
  
- (4) Conduct a review of the expected useful life of all equipment and building components using the Corporation's Estimated Useful Life Tables (Appendix F of the CNA Guide);
  
- (5) Physically inspect the property via visual observation unless specified otherwise;

- (6) Develop a 15-year replacement reserve table to be used in credit underwriting and post-rehabilitation asset management in the prescribed format indicated in Appendix K of the CNA Guide;
  - (7) Review the Corporation requirements in Section Four A.8. of the RFA; and
  - (8) Consider the Applicant's scope of work preferences. (Note: The CNA provider will use his/her professional judgement in the appropriateness of items included in the Applicant's scope.)
- e. At a minimum, the physical inspection will include:
- (1) All vacant and out-of-service units;
  - (2) At least 25% of all occupied units;
  - (3) All units set aside to meet Section 504 of the Rehabilitation Act of 1973, as outlined in Section Four, A.8.a. of the RFA;
  - (4) At least one unit in each building;
  - (5) At least one unit of each bedroom-size configuration;
  - (6) All common areas; and
  - (7) For scattered sites, at least one unit from each site, but no less than the percentages specified above.
- f. The CNA provider will independently evaluate every aspect of the property including basic development information, evaluation of the Corporation's required construction features (if present), site conditions, building components and systems, amenities and program features and hazardous materials and conditions as indicated in Appendix A of the CNA Guide. The CNA provider should document representative conditions with photographs as prescribed in the CNA Guide and use reasonable efforts to document typical conditions present including material physical deficiencies, if any.
- g. The CNA provider shall also identify any known or observed deficiencies with the property, considering both individual units and common areas. The CNA provider should separately list in the CNA any existing conditions which threaten the life and safety of residents. Exigent needs of this nature should be brought to the attention of the property management, the Credit Underwriter, and the Corporation through the CNA report.
- h. The CNA Provider shall conduct an accessibility survey using the format prescribed in Appendix B of the CNA Guide and the FHFC Accessibility requirements outlined in Section Four A.8.a. and c. of the RFA.
- i. After the inspection and evaluation is complete, the CNA provider will deliver a CNA report to the Credit Underwriter and the Corporation. The CNA report shall follow the requirements and content as described in section 3.3 of the CNA Guide, and will reflect the CNA provider's independent professional opinion in regard to:

- (1) A summary of all exigent needs which threaten health or life safety;
- (2) A summary of all known or observed deficiencies pursuant to the FHFC Accessibility requirements outlined in Section Four A.8.a. and c. of the RFA, FHA, and/or ADA requirements, as well as outstanding and/or recorded building or fire code violations;
- (3) Confirmation that all items committed to in the Application (including all items required by the Corporation as outlined in Section Four A.8. of the RFA) are physically and financially feasible within the contemplated budget, which shall include the appropriateness of the rehabilitation measures selected by the Applicant, considering the remaining useful life and the current condition of the subject features;
- (4) A list of and associated costs **immediate** repair items, critical repair items and deferred maintenance items for needs to be addressed in less than 12 months from the completion of the CNA in a format prescribed in Appendix J of the CNA Guide;
- (5) A list and associated costs of all long-term physical needs between years 1 and 15 from completion of the CNA in a format prescribed in Appendix K of the CNA Guide. The cost estimate will include both current replacement cost and inflation adjusted replacement costs using a 3% annual inflation factor;
- (6) An estimate of the “reserves necessary for replacements”;
- (7) An estimate of the cost of rehabilitation based on one or more of the following sources:
  - (a) Applicant or Owner provided unit costs;
  - (b) Owner’s historical experience costs;
  - (c) Consultant’s cost database or cost files;
  - (d) Commercially available cost information or published commercial data;
  - (e) Third-party cost information from contractors, vendors, or suppliers; and/or
  - (f) Other qualified sources that the Corporation determines appropriate.
- (8) An executive summary as described in section 3.3 of the CNA Guide:
- (9) An evaluation of site conditions (as applicable) as indicated in Appendix A section III of the CNA guide;
- (10) An evaluation of building components and systems conditions (as applicable) as indicated in Appendix A section IV of the CNA guide;
- (11) An evaluation of conditions of any existing FHFC required construction features as indicated in Appendix A section II of the CNA guide;
- (12) An evaluation of fixtures, casework and equipment conditions (as applicable) as indicated in Appendix A section V of the CNA guide;

- (13) Evaluation of conditions of any amenities and program features on the property as indicated in Appendix A section VI of the CNA guide;
  - (14) A description of directly observed or potential on-site hazardous materials and conditions as indicated in Appendix A section VII of the CNA guide;
  - (15) An analysis of the estimated remaining useful life of the property, which shall be in the format prescribed by Appendices H and I of the CNA Guide;
  - (16) The basis for identifying any item for repair or replacement;
  - (17) Appendices (photographs, site plans, maps, etc.); and
  - (18) Certification of the CNA provider's qualifications and acknowledgments of who prepared the report, when the report was prepared, and for whom the report was prepared.
- j. The CNA provider will confirm that it is physically feasible to meet the requirements of Section Four. A.8.a., and A.8.c. of the RFA within the contemplated budget, and provide an estimated cost for meeting those requirements.
  - k. The CNA provider will opine as to the physical and financial feasibility of the inclusion of full-size ranges and ovens in all rehabilitation units in Elderly Developments. The CNA provider shall include supporting documentation (plan sketch with dimensions, photographs, etc.) that support their conclusion.
  - l. The CNA provider will opine as to the physical and financial feasibility of all of the Green Features required in Section Four A.8.d. of the RFA.
  - m. Where appropriate, the CNA provider will comment on the proportions of physical needs that have resulted from accumulated deferred maintenance, and from ordinary use and decline of a properly maintained property. If, in the CNA provider's expert opinion, the deterioration of the property has been accelerated by poor management practices, that information must be disclosed to the Credit Underwriter and the Corporation.
  - n. The CNA provider will also comment on whether rehabilitation of a particular feature ordinarily requires relocation of the tenant.
3. The Scoping Stage (Steps 8-11)
- a. Once the CNA report is completed by the CNA provider, the report will be sent to the Credit Underwriter and the Corporation as soon as practicable. From this CNA report, the Provider will prepare the draft Rehabilitation Scope of Work using the Worksheet (rev. 8-2017) attached to this Exhibit.
  - b. Each Rehabilitation Scope of Work must include the measures listed below.
    - (1) A minimum per unit hard cost budget of non-luxury improvements as specified in the RFA.

- (2) Corrective actions for all exigent needs noted in the CNA including all deficiencies which threaten health and life safety, as well as observed and recorded building or fire code issues.
  - (3) The replacement of any component of the building or site with an effective remaining useful life, according to the Corporation's Estimated Useful Life Tables (Appendix F of the CNA Guide, of less than 5 years. The CNA will be used to determine which components meet this criterion.
  - (4) The replacement of any component of the building or site with an effective remaining useful life, according to the Corporation's Estimated Useful Life Tables (Appendix F of the CNA Guide, of less than 15 years, if determined appropriate for this rehabilitation and if there is remaining funding available. The CNA will be used to determine which components meet this criterion.
  - (5) Substantially the same scope of work in all units of the same type.
  - (6) Compliance with this Exhibit, the requirements of the applicable RFA, the Florida Administrative Code, and any other Florida Housing guidance upon completion of work.
  - (7) Compliance with applicable Florida building code and local fire code regulations, as well as FHA and ADA requirements upon completion of work.
  - (8) Compliance will all applicable Florida Housing accessibility requirements upon completion of work.
  - (9) Compliance with Uniform Physical Condition Standards (UPCS) upon completion of work.
- c. The CNA Provider will populate the Scope of Rehabilitation Worksheet with the measures identified in the CNA in the following order:
- (1) All exigent needs noted in the CNA including all deficiencies which threaten health and life safety (Exigent Needs in the template), needs required to conform with applicable Florida building code and local fire code regulations, as well as FHA and ADA requirements;
  - (2) All work required to meet FHFC accessibility requirements (Accessibility Requirement in the worksheet);
  - (3) Any item required in the applicable RFA, or promised by the Applicant at the time of Application (RFA Requirement in the worksheet);
  - (4) Any component of the building or site with an effective remaining useful life of less than 5 years (5 yr Need in the worksheet);
  - (5) To the extent that funding is available, replacement of any component of the building or site with an effective remaining useful life of less than 15 years (6-15 yr Need in the worksheet); and

- (6) Enhancements required to make the property marketable (Marketability in the worksheet).
  - d. Systems and components with more than 5, but less than 15 years of remaining useful life should be prioritized in the following order:
    - (1) Site improvements;
    - (2) Structural components and building envelope;
    - (3) Mechanical, electrical, and plumbing systems;
    - (4) Unit improvements including fixtures and finishes;
    - (5) Common area improvements; and
    - (6) Other improvements.
  - e. Upon reception of the draft Scope of Work, the Applicant shall have a 14 Calendar Day review period in which the Applicant may provide additional information and comment on the draft Scope of Work.
  - f. Upon the close of the Applicant's 14 Calendar Day review and comment period, the Credit Underwriter shall have a 7 Calendar Day review period in which the Credit Underwriter may craft opinions and recommendations to the Corporation regarding the Applicant's comments on the Draft Scope of Work. No later than the end of this 7 Calendar Day period, the Credit Underwriter shall submit the CNA report, the draft Scope of Work, the Applicant's comments (on the draft scope) and the Credit Underwriter's opinions and recommendations to the Corporation.
  - g. The Corporation shall review the material provided by the Credit Underwriter to first determine that all of the requirements of Section Four A.8.a. and c. have been met within available sources for the proposed Rehabilitation of the Development. If the Corporation determines the above requirements cannot be met with available sources, the preliminary award will be rescinded.
4. Credit Underwriting and Beyond (Steps 12–15)
  - a. If the Corporation determines that all of the requirements of Section Four A.8.a. and c. can be met, and that there are no other issues that would disqualify the Applicant, then the Credit Underwriting process may proceed.
  - b. During the Credit Underwriting process, the Corporation will review and approve the final Scope of Work for the project.
  - c. Once the Corporation has approved the final Scope of Work for the Development, develop construction plans and the schedule of values for the Development. These construction plans shall be submitted to the Corporation for review and approval during the credit underwriting process.
  - d. As with any funding, the Corporation will conduct a final inspection to verify that all work in the approved Scope of Work has been completed, including delivery of all

required features, amenities and measures needed to meet the Corporation's Housing Accessibility Standards.
