Subject: Site plan approval

Mimecast Attachment Protection has deemed this file to be safe, but always exercise caution when opening files.

I was just thinking about the site plan approval proposed points.

Based on the enclosed drafts, a rehab automatically has site plan approval points.

Given that the state desperately needs new affordable housing units to add to the housing stock, rather than rehabs, my recommendation is that the site plan bonus points should not be added.

Let me know your thoughts!
