B. Purpose of the program:

- To meet the housing needs of the very low, low and moderate income households;
- To meet the housing needs of persons with special needs;
- To preserve and rehabilitate existing housing and neighborhoods;
- To expand production of and preserve affordable housing; and
- To further the housing element of the local government comprehensive plan specific to affordable housing.

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care. The City’s previous Housing Assistance Plan partnered with various non-profit sponsor organizations for the development of its housing strategies. This current plan builds on those partnerships and extends its reach to corporate sponsors, social services organizations, the Lee County Continuum of Care, and for-profit and non-profit organizations. In addition, the City is actively involved in various affordable housing interest groups at the State, County, and local levels of government. The combined resource of these partnerships provides a variety of benefits in the community. These benefits include a reduction in the cost of providing housing, visible improvements to the community’s housing stock and increased opportunity for the disadvantaged.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through face to face meetings with housing providers, social service providers and local lenders and neighborhood associations. Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.
I. **Waiting List/Priorities:** A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time applications were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding described/listed here apply to all strategies unless otherwise stated:

J. **Discrimination:** In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, , handicap, or familial status in the award application process for eligible housing.

K. **Support Services and Counseling:** This Housing Assistance Plan provides for support services which assist in the implementation and development of the housing strategies. These support services are provided to both sponsors and beneficiaries of the plan. They include counseling, networking and technical assistance where needed. These services are provided by the sponsor agencies whom the City’s partners with and City staff.

L. **Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be that calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the median area purchase price established by the U.S. Treasury Department or as described above.

The methodology used is:

</tbody>
</table>

M. **Income Limits, Rent Limits and Affordability:** The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at [www.floridahousing.org](http://www.floridahousing.org).

“Affordable” means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household’s ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

N. **Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria
for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.

O. Monitoring and First Right of Refusal: In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of $10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.

P. Administrative Budget: A line-item budget is attached as Exhibit A. The city finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: “A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan.”

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: “The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to $350,000 may use up to 10 percent of program income for administrative costs.” The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.

Q. Program Administration: Administration of the local housing assistance plan will be performed by:

R. Project Delivery Costs: The City of Cape Coral will not receive any project delivery costs.

S. Essential Service Personnel Definition: The City of Cape Coral defines essential service personnel as: any household earning 120 percent area median income (AMI) or below and, employed in the education system, city or county government, medical and health services, public safety (first responders) and skilled building trades.
T. Describe efforts to incorporate Green Building and Energy Saving products and processes: The City of Cape Coral will encourage green building requirements in the building specifications for all new construction and rehabilitation projects to include, but not limited to the following: energy star rated windows, appliances, hot water heater and ceiling fans, low flow plumbing fixtures, insulated exterior doors, increased insulation for walls and ceilings, higher efficiency HV AC units and programmable thermostats.

U. Describe efforts to meet the 20% Special Needs set-aside: The City of Cape Coral will utilize at least 20% of funding to assist persons meeting the State of Florida definition of special needs. Prioritization of funding will be for the rehabilitation of owner-occupied homes of persons with special needs. Outreach for clients will include marketing to a variety of agencies, including but not limited to, Goodwill, Agency for Persons with Disabilities, the City of Cape Coral Special Populations Program, United Cerebral Palsy, etc. Additionally, advertisements in publications of general circulation may also be used. Should efforts to attract special needs clients under this strategy not produce the amount necessary to reach the set aside, persons meeting the definition of special needs may be assisted with other approved LHAP strategies and counted towards the set-aside.

V. Describe efforts to reduce homelessness: The City supports the efforts of the Lee County Continuum of Care (CoC) to simplify and broaden outreach and assessment efforts for homeless persons in Lee County. Much of the outreach to homeless persons is conducted at community events such as the Point in Time Count and the Stand Down/Service Day. There are also specific special events held for the homeless, including an annual candlelight vigil in memory of the homeless who have died in that past year, which is held annually in December. Additionally, outreach is conducted by the many caseworkers at community agencies, the Lee County Homeless Coalition, schools, and other entities that encounter the homeless during other service delivery or during their regular course of business. Needs are assessed during these points of contact, and referrals are made as appropriate. The City of Cape Coral will support programs and resources to allow formerly homeless and at-risk-of homelessness residents to access to affordable permanent housing. The City’s local resources include the federal CDBG and the state SHIP funds.

Monthly shots control HIV as well as pills in 2 big studies

Carla K. Johnson
ASSOCIATED PRESS

Seattle – Monthly shots of HIV drugs worked as well as daily pills to control the virus that causes AIDS in two large international tests, researchers reported Thursday.

If approved by regulators in the United States and Europe, the shots would be a new option for people with HIV and could help some stay on treatment, instead of having to remember to take pills, patients instead could get injections from a doctor or nurse each month.

"Some people will be thrilled" at the convenience, said Mitchell Warren, executive director of AVAC, an AIDS advocacy group.

Condoms remain the most widely available and inexpensive form of HIV prevention. Pills taken daily can keep HIV levels so low the virus is not transmittable to sex partners, but not everyone takes pills as prescribed.

The shots could improve how well some people stick to treatment, perhaps helping those who have difficulty remembering to take daily medications to keep infection at bay.

There are other potential benefits. Getting shots at a clinic can lend more privacy to patients worried about the stigma of filling an HIV prescription at a pharmacy, said Dr. Susan Swindells of the University of Nebraska Medical Center in Omaha, who presented findings Thursday at an HIV conference in Seattle.

Cost will be an issue "to make sure that everyone has access to this medication," said Dr. Hyman Scott of the San Francisco Department of Public Health, who was not part of the study. It's not clear how much the shots would cost. HIV pills can cost a patient up to thousands of dollars monthly, depending on the drug combination, insurance coverage, rebates and discounts.

And there will be concern about patients missing a monthly shot, which could lead to drug-resistant strains of the virus. It will be "a good option for some people," Scott said.

Whether monthly shots will also work to protect users' sex partners hasn't been studied yet, but there is reason to think they will, said experts at the conference. The shots are a lasting combo of two HIV drugs – raltegravir, sold as Edward by Johnson & Johnson's Janssen, and ViiV Healthcare's experimental drug, known as cabotegravir.

ViiV Healthcare paid for the research. The drugmakers are seeking approval for this year in the United States and Europe.

One study included 486 people who were taking pills to treat their HIV infection. The other study enrolled 564 people who hadn't yet started treatment, so they first get pills then switch to the shots to control.

In both of the studies, half the participants switched to the shots while the rest stayed on pills. After nearly a year, 1 to 2 percent of people in both groups had traces of virus in their blood, whether they got shots or pills. That shows the shots worked as well as the standard pill therapy.

A few people withdrew from the studies.

The studies were done in Europe and North America and in nations including Argentina, Australia, Russia, South Africa and the United States and Mexico.
