I. Program Details:

A. LG(s)

Name of Local Government	The City of Pembroke Pines
Does this LHAP contain an interlocal agreement?	No
If yes, name of other local government(s)	N/A

B. Purpose of the program:

- To meet the housing needs of the very low, low and moderate-income households;
- To expand production of and preserve affordable housing; and
- To further the housing element of the local government comprehensive plan specific to affordable housing.

C. Fiscal years covered by the Plan: 2022-2023, 2023-2024, 2024-2025

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through face-to-face meetings with housing providers, social service providers and local lenders and neighborhood associations. Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time completed applications were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding (very low income, Special Needs, etc.) described/listed here apply to all strategies unless otherwise stated in an individual strategy in Section II:

1. Special Needs Applicants 2. Essential Service Personnel 3. Very low income 4. Low income
5. Moderate income

J. Discrimination: In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing.

K. Support Services and Counseling: Support services are available from various sources. Available support services may include, but are not limited to: Homeownership Counseling (Pre and Post), Credit Counseling, Tenant Counseling, Foreclosure Counseling and Transportation.

L. Purchase Price Limits: The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be that calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the average area purchase price established by the U.S. Treasury Department or as described above.

The purchase price limit that is established by the U.S. Treasury Department is not to be misconstrued as the target price for affordable housing in the City of Pembroke Pines. One of the objectives of the City’s housing program is not to develop policies that concentrate income groups within the City into one area. Raising the limits promotes housing choices for purchase assistance applicants, promotes mixed-income communities and provides an opportunity to assist more owner-occupied households in areas where assessed housing values have greatly appreciated by residents still fall into very low, low and moderate income categories based on income data provided by the Federal government.

The methodology used is:

U.S. Treasury Department	X
Local HFA Numbers	

M. Income Limits, Rent Limits and Affordability: The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

“Affordable” means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household’s ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

- N. Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.
- O. Monitoring and First Right of Refusal:** In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of \$10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.
- P. Administrative Budget:** A line-item budget is attached as Exhibit A. The city/county finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: “A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan.”

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: “The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except those small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to \$350,000 may use up to 10 percent of program income for administrative costs.” The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.

- Q. Program Administration:** Administration of the local housing assistance plan will be performed by:

Entity	Duties	Admin. Fee Percentage

2. Ceiling fans in living and bedrooms
3. Motion sensor light switches
4. Cool roofing — single polymer cover or elastomeric coating
5. Programmable thermostat

7. Green Label Certified Floor Coverings
8. Mold/Lead/Asbestos Removal
9. Extended warranty items
10. Quality standards for materials
11. New Construction projects that are accessible by public transportation.

These requirements may be adjusted for rental developments if the requirements of other construction funding sources require a more prescriptive list.

- V. **Describe efforts to meet the 20% Special Needs set-aside:** The City will advertise its SHIP funding availability to agencies that serve the qualified special needs population. In addition, the City regularly communicates with various organizations that serve this population. All housing programs/activities offered by the City give priority funding to “special needs” population households, regardless of funding source.

- W. **Describe efforts to reduce homelessness:** The City of Pembroke Pines participates with the Broward County Homeless Counsel and the Continuum of Care, which include the following fundamental components;
 - 1. Homeless prevention;
 - 2. Outreach and assessment to identify an individual’s or family’s needs to make connections to facilities and services;
 - 3. Immediate Shelter and safe, decent alternatives to the streets;

The Primary purpose of the program is to provide repairs necessary to provide safe and decent housing, eliminate any instances of substandard housing, and preserve the City’s affordable housing stock. All repairs of an emergency nature as declared by the Chief Building Official or designee shall be expedited for the purpose of stabilizing housing conditions pending full rehabilitation.

- b. Fiscal Years Covered: 2022-2023, 2023-2024, 2024-2025
- c. Income Categories to be served: Very low, low and moderate
- d. Maximum award: \$110,000
- e. Terms:
 - 1. Repayment loan/deferred loan/grant: Funds will be awarded as a deferred loan secured by a recorded subordinate mortgage and note. Sewer connection projects, repair projects, or program costs incurred under \$5,000 will be granted.
 - 2. Interest Rate: 0%
 - 3. Years in loan term: 15 years, 10 year term for Special Needs as defined in 420.0004(13)
 - 4. Forgiveness: The loan is forgivable in its entirety at the end of fifteen (15) years from recordation date of mortgage and note. For Special Needs applicants, the loan is forgiven on a prorated basis of

10% per year.

5. Repayment: None due as long as the loan is in good standing.
6. Default: The loan will be determined to be in default if any of the following occurs during the Loan term: sale, transfer, or conveyance of property; conversion to a rental property; loss of homestead exemption status; or failure to occupy the home as primary residence. If any of these occur, the outstanding balance will be due and payable.

In cases where the qualifying homeowner(s) die(s) during the loan term, the loan may be assumed by a SHIP eligible heir who will occupy the home as a primary residence. If the legal heir is not SHIP eligible or chooses not to occupy the home, the outstanding balance of the loan will be due and payable.

In the event of default where there is failure to make required payments on a loan secured by a first mortgage which leads to foreclosure and/or loss of the property ownership, the City may foreclose to recover funds made available for assistance which is secured by mortgage and note on the property.

- f. Recipient Selection Criteria: Applicants will be ranked for assistance based on a first-qualified, first-served basis with the priorities for Special Needs, Essential Services Personnel and income groups as described in section I. (I) of this plan.
 - Property must be owner occupied.
 - Verification of ownership, income, homeowners insurance (insurance requirements will be waived for extremely low & very-low applicants), flood insurance (if required) and payment of property taxes will be conducted to determine eligibility.
 - A warranty deed, or quit claim deed will be utilized to verify ownership and primary residences should maintain homestead exemption. Life Estates also qualify.
 - Hazard and flood insurance should be in place at time of award and be maintained as long as first and/or second mortgage remains on property. If a property is not required to have flood insurance then the file will be documented that flood insurance is not required.
 - In the event property is not insured and there is a hardship by household to maintain insurance and repairs are needed to eliminate substandard, code, health and safety issue, the Planning and Economic Development Director or his designee may waive insurance requirements, as long as project is not leveraged with Federal funds, where flood insurance is required.

Hardship is defined as:

1) Condition of property makes it uninsurable

Or

2) At time of application household had no insurance or housing insurance expenses exceeded 50% of a fixed income household (waived for extremely-low & very-low income).

- g. Sponsor Selection Criteria: N/A

- h. Additional Information: The home must be located within the City limits. In the event of a disaster, declared by Executive Order by the President or Governor and disaster mitigation funds are no longer available, this program will assist with disaster related repairs as well. The program is not designed to remodel or upgrade homes with purely cosmetic repairs or replace working appliances because the owner wants to upgrade.

Housing units that have a pending foreclosure (Lis Pendens) from a mortgage company or homeowners/condo association cannot be assisted until resolved. Properties with a lien from the homeowners/condo association also will not be assisted until resolved. Households undergoing a loan modification will not be assisted until the modification is complete and a new mortgage acceptable to the program is provided.

Units that meet one of the above conditions may not be assisted with HOME funding if work beyond the limited repair assistance is required to bring the home up to full rehabilitation standards. When units are assisted in whole or in part with HOME funds all required repairs to meet rehabilitation standards must be addressed. Program is not credit driven and credit reports will not be reviewed to determine eligibility for assistance.

Mortgage must be current and will be verified with mortgage statement or third party-verification of mortgage.

Title searches will be conducted. There must be evidence that there is no pending foreclosure on the property.

The property's assessed value must not exceed the value noted in the plan for new and existing homes. The current assessed value indicated on Broward County Property Appraiser's website shall be used to determine the value of the property after SHIP is provided.

Applicants will be required to sign program disclosures, including a conflict of interest disclosure prior to completing application or the application being processed.

Homeowners, who have received comprehensive repair assistance from the City, cannot re-apply for five (5) years, except for cases where emergency repairs are needed as determined by the City's Building Official or his designee or in cases where no waiting list exists and funds are available. Applicants must wait at least a period of 12 months before being eligible to apply for assistance. Maximum assistance will be twice in any five-year period.

Similarly, any units receiving assistance from SHIP and other Federal, State or local programs shall be required to comply with any requirements specified by the other program in addition to SHIP program requirements. In the event both programs have restrictions on the same issue, the more restrictive regulation shall take precedence. If one program is silent on an issue, the program with a regulation on the issue shall apply. All other regulatory requirements will be enforced.

Funds may be used as a match for U.S. Department of Housing and Urban Development's HOME program and various other programs offered by the federal government and the State of Florida to develop affordable housing.

Eligible expenses will include construction hard costs and soft costs necessary to rehabilitate or construct the project. This includes cost of land, cost to acquire structure and land, demolition cost, professional service fees such as environmental phase 1, engineering, survey, appraisal, architectural, and interest buy downs.

The financing structure that will be utilized will provide the greatest affordability to the household that will eventually occupy the unit. Loans provided to developers for multi-family housing constructed under this strategy must be reserved for units that will benefit eligible persons and include deed restrictions for long term affordability for no less than 15 years.

For rental projects where units for households with incomes at 140% area median or less are greater than 50% of total units being constructed or rehabilitated, assistance will be in the form of a deferred loan if economically feasible to the City's program. The City encourages mixed-use developments. All other projects, not meeting this criterion may be subject to the low-interest loan.

The City staff, or contracted entity that has administrative authority for implementing a local housing assistance plan, shall annually monitor and determine tenant eligibility throughout the 15 compliance period. For those developments that the Florida Housing Finance Corporation or Federal Program such as Section 202 provides the same or stricter monitoring and determination, the City may rely on such monitoring and determination of tenant eligibility.

Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this strategy must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons. The SHIP assisted units in a rental housing project will be occupied only by households that are eligible as very-low to moderate income families. Maximum monthly rent limits will be those established annually by HUD and distributed by FHFC.

III. LHAP Incentive Strategies

In addition to the **required Incentive Strategy A and Strategy B**, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.:

- A. Name of the Strategy: **Expedited Permitting**
Permits as defined in s. 163.3177 (6) (f) (3) for affordable housing projects are expedited to a greater degree than other projects.

Section 420.9071(16), F.S.

Provide a description of the procedures used to implement this strategy: Permits as defined in s. 163.3164(7) and (8) for affordable housing projects are expedited to a greater degree than other projects. This also includes a process to expedite inspections. The City utilizes an expedited inspection process for affordable housing projects in the City. For the purpose of this incentive, "Development Approvals" is used instead of "Development Orders".

Established Policy and Procedures – Expedited Permitting:

Permit applications for affordable housing are inserted into a green folder. The green folder is forwarded to the designated structural plans examiner, to ascertain the degree and scope of plan review. If other disciplines are required to review the job, they are to be advised immediately and reminded that the review is to be done promptly. The applications shall be completely reviewed and prepared for pickup within five (5) business days, and for rehabilitation, within a 24 hour period.

Both the City of Pembroke Pines' Future Land Use Element (Policy 9.4 – applying to LAC and RAC land uses) and Housing Element (Policy 1.2) of the City's Comprehensive Plan state that an expedited permit process should exist in support of affordable housing. City Resolutions 2246 and 2279 also discuss expedited review and affordable housing projects.

- B. Name of the Strategy: **Ongoing Review Process**
An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption.

Established Policy and Procedures – Ongoing Review Process

Provide description per instructions from the City Manager's office, all Department Heads are to be involved in the review process for local policies, ordinances, regulation & plan provisions that may increase the cost of housing.

Once an item has been identified as having a potential impact, an analysis must be done to determine the impact, if any, and how it may be mitigated. This analysis should be done by the department that generated the legislation with subsequent review by the Director of Administrative Services, the Planning Department and/or Consultant if an impact is expected.

The Determination of impact/no impact should be indicated in the department's report to the

City Manager. If there will be an impact, the value of the impact and how it will be mitigated should be stated.

C. Other Incentive Strategies Adopted:

1. Name of Strategy: Allowance in Flexibility of Density for Housing Units. The City promotes the flexibility of density for housing units as currently permitted.

The City historically utilized flexibility units and land use plan amendments to increase the density for affordable development projects. The City has yet to take advantage of the new density bonuses for flexibility and reserve units but may consider the use of such densities when allocating flexibility units for affordable projects in the future.

2. Name of Strategy: Preparation of a Printed Inventory of Locally Owned Public Lands Suitable for Affordable Housing.

The City continues to maintain a vacant land map which has been supplied to all affordable housing applicants and interested parties.

3. Name of Strategy: Reservation of Infrastructure Capacity

City public services staff continuously reviews roadway and infrastructure conditions and makes improvements to these systems as necessary. The Infrastructure Element (Policy 2.11) states the City shall require existing development using septic tanks to hook up to centralized sewer facilities as they become available in order to phase out septic tank systems in an economically feasible and environmentally sound manner.

4. Name of Strategy: Support of Development near Transportation Hubs and Major Employment Centers and Mixed-Use Development.

Based on City Code, Section 155.452 and 155.456, both Planned Development – Small Lot (PD-SL) District and the Hospital District (HD) facilitates the development, redevelopment and use of properties in the city in close proximity to mass transit and encourages a mixture of functionally related uses in close proximity of each other to promote pedestrian activity and reduce vehicle miles traveled.

5. Name of Strategy: Parking and Setback Requirements

The City created a zoning category for small lots 10 acres or less, Planned Development – Small Lots (PD-SL) District. This zoning district encourages creativity in designing and constructing on smaller sized lots. The PD-SL District would allow the developer to propose setbacks and parking requirements that differ from code, encourages flexibility in development, redevelopment, investment and reinvestment of underutilized and/or abandoned properties, while also encouraging sustainable development practices.

The City approved the 1600 Building site plan for affordable housing Planned Small Lot Development

District Design Guidelines standard requiring one (1) parking space per bedroom plus one (1) visitor parking space per five (5) dwelling units where 2 parking spaces per unit are required by City Code. The acceptance of this reduced parking standard was related to the site's proximity to transit as well as the property providing an affordable set aside.
