If yes, name of other local government(s)	N/A

B. Purpose of the program:

- To meet the housing needs of the very low, low and moderate-income households.
- To expand production of and preserve affordable housing; and
- To further the housing element of the local government comprehensive plan specific to affordable housing.

C. Fiscal years covered by the Plan: 2026-2027, 2027-2028, 2028-2029

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through face to face meetings with housing providers, social service providers and local lenders and neighborhood associations. Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time completed applications were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding (very low income, Special Needs, etc.) described/listed here apply to all strategies unless otherwise stated in an individual strategy in Section II:

- a. All strategies will serve households meeting the definition of Special Needs first.
- b. After Special Needs as defined in 420.0004 (13), all strategies will serve households meeting the definition of Essential Services Personnel that meet the very low and low set-asides.
- c. After Essential Services Personnel as defined in Section I, all strategies will serve households to meet the very low and low set-asides.

- J. **Discrimination:** In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing.
- K. **Support Services and Counseling:** Support and counseling services are available from various sources. Available support services may include but are not limited to: Homeownership Counseling (Pre and Post), Credit Counseling, Tenant Counseling, Foreclosure Counseling through referral to qualified HUD approved housing counseling agencies. The County may also provide heirs property assistance, title clearing, and estate planning services through referral to qualified legal service providers.
- L. **Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the average area purchase price established by the U.S. Treasury Department or as described above.

The methodology used is:

U.S. Treasury Department	X
Local HFA Numbers	

- M. **Income Limits, Rent Limits and Affordability:** The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

"Affordable" means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household's ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

- N. **Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given

preference in the selection process.

- O. Monitoring and First Right of Refusal:** In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of \$10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.
- P. Administrative Budget:** A line-item budget is attached as Exhibit A. The city/county finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: "A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan."

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: "The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to \$350,000 may use up to 10 percent of program income for administrative costs." The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.

- Q. Program Administration:** Administration of the local housing assistance plan will be performed by:

Entity	Duties	Admin. Fee Percentage
Local Government	Alachua County	10%
Third Party Entity/Sub-recipient	N/A	

- R. First-time Homebuyer Definition:** For any strategies designed for first-time homebuyers, the following definition will apply: *An individual who has had no ownership in a principal residence during the 3-year period ending on the date of purchase of the property. This includes a spouse (if either meets the above test, they are considered first-time homebuyers). A single parent who has only owned a home with a former spouse while married. An individual who is a displaced homemaker and has only owned with a spouse. An individual who has only owned a principal residence not permanently affixed to a permanent foundation in accordance with applicable regulations. An individual who has only owned a property that was not in compliance with state, local or model building codes and which cannot be brought into compliance for less than the cost of*

constructing a permanent structure.

- S. Project Delivery Costs:** In addition to the administrative costs listed above, the county may charge a reasonable project delivery cost to cover title searches, recording fees, legal fees, or inspections performed by non-county employees for rehabilitation projects. The fee will not exceed 5% of the contracted SHIP award and will be included in the amount of the recorded mortgage and note.
- T. Essential Service Personnel Definition (ESP):** ESP includes teachers and educators, other school district, community college, and university employees, police and fire personnel, health care personnel, and skilled building trades personnel.
- U. Describe efforts to incorporate Green Building and Energy Saving products and processes:** The county may, when economically feasible, employ the following Green Building requirements for new construction development, rehabilitation, and emergency repairs:
1. Low or No-VOC paint for all interior walls (Low-VOC means 50 grams per liter or less for flat paint; 150 grams per liter or less for non-flat paint)
 2. Low-flow water fixtures in bathrooms; Water Sense labeled products or the following specifications:
 - Toilets: 1.5 gallons/flush or less
 - Faucets: 1.5 gallons/minute or less
 - Showerheads: 2.0 gallons/minute or less
 3. Energy Star certified water heater, exhaust/ventilation fans, lighting, ceiling fans, refrigerator, dishwasher, washer, dryer, if provided in units
 4. High efficiency heating, ventilation, and air conditioning (HVAC) systems with a minimum of 15 SEER (or 14.3 SEER2). Packaged units are allowed in studios and one-bedroom units with a minimum of 14 SEER (or 13.4 SEER2)
 5. Upgrade of insulation, provide caulking and weather stripping of windows and doors
 6. Structural enhancements such as roofing tie downs, impact resistant windows, and wind/hurricane mitigation and resilience improvements
- V. Describe efforts to meet the 20% Special Needs set-aside:** The goals will be met by ranking Special Needs households first for owner-occupied rehabilitation, emergency repair, and rental assistance strategies. All applications are reviewed and approved by SHIP county staff. Standard procedures are first come first served, however where we have a waiting list, those persons with special needs are ranked higher. We are defining Persons with special needs as in section 420.0004(13), Florida Statutes, "as an adult person requiring independent living services to maintain housing or develop independent living skills and who has a disabling condition; a young adult formerly in foster care who is eligible for services under s. 409.1451(5); a survivor of domestic violence as defined in s. 741.28; or a person receiving benefits under the Social Security Disability Insurance (SSDI) program or the Supplemental Security Income (SSI) program or from veterans' disability benefits." Persons with special needs as defined above and including frail elders, individuals experiencing homelessness, and people with disabilities may have difficulties finding housing that is safe, affordable, and permanent. They may also require housing that is matched with accessible support services. Many, if not most, of these people with special needs are low or extremely low income (ELI).
- W. Describe efforts to reduce homelessness:** The County works with the local Continuum of Care (CoC) and

agencies serving the homeless populations primarily through referrals and rental assistance to place these individuals or families in rental housing for the purpose of providing a stable housing situation for twelve months or more. In addition to the direct use of SHIP funding to prevent homelessness through the eviction prevention strategy and to rehouse homeless households through the rental assistance strategy detailed below, the County has a partnership with the City of Gainesville to reduce homelessness. The County also has a representative serving on the CoC Governance Board and staff serving on the CoC housing committee, coordinated entry system committee, and planning committee.

III. LHAP Incentive Strategies

In addition to the **required Incentive Strategy A and Strategy B**, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.:

- A. Name of the Strategy: **Expedited Permitting**
Permits as defined in s. 163.3177 (6) (f) (3) for affordable housing projects are expedited to a greater degree than other projects. Sec. 402.03.5. – Building permit review for affordable housing units.
 - a. Applicability: This section applies to all housing units funded by any of the following programs: (1) Community Development Block Grant (CDBG) (2) State Housing Initiatives Partnership Program (SHIP) (3) Impact Fee Assistance Program (4) Other (i.e., housing tax credit program).
 - b. Processing Building Permits: Building permits for projects meeting the affordable housing guidelines above shall be available (processed) within six business days from the day the application is found sufficient and complete. No default permit is issued on account of this deadline.
 - c. Application information: In addition to the required information necessary to obtain a building permit, all affordable housing units seeking expedited permit review shall submit an Alachua County Expedited Review Process for Affordable Housing Units form. (Ord. No. 09-05, § 2(Ext. A), 9-8-09)
- B. Name of the Strategy: **Ongoing Review Process**
An ongoing process for reviewing local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption. The Alachua County

Affordable Housing Advisory Committee meets as needed to discuss any changes to the rules or regulations that may affect or adversely impact affordable housing.

C. Other Incentive Strategies Adopted:

a. **Modification of Impact Fees for Affordable Housing**

The County previously provided General Revenue Funding to offset the cost of impact fees for affordable housing units. For reasons of budgetary considerations and lack of effectiveness as a means of achieving affordable housing. The housing element must express principles, guidelines, standards, and strategies that reflect, as needed, the creation and preservation of affordable housing for all current and anticipated future residents of the jurisdiction, elimination of substandard housing conditions, adequate sites, and distribution of housing for a range of incomes and types, including mobile and manufactured homes. The element must provide specific programs and actions to partner with private and nonprofit sectors to address housing needs in the jurisdiction, streamline the permitting process, and minimize the costs and delays for affordable housing, establish standards to address the quality of housing, stabilization of neighborhoods, and identification and improvement of historically significant housing. The County recently decided not to pursue this strategy.

b. **Reservation of Infrastructure Capacity for Housing for very low-income persons, low-income persons, and moderate-income persons**

The Unified Land Development Code, Sec. 407.121(b), provides that a preliminary certificate of level of service compliance (CLSC) may be issued for affordable housing developments for periods established by the phasing schedule of the project's approved preliminary development plan. Reservation of public-school capacity associated with the provision can be made through a development agreement between the developer, county, and the school board under the Interlocal Agreement for Public School Facility Planning.

c. **Allowance for Accessory Dwelling Units in Residential Units in Residential Zoning Districts**

The Unified Land Development Code, Sec. 404.24, provides that in the A, RE, RE-1, R-1a, R-1b, and R-1c districts, located within the rural/agriculture, estate residential, low-density, or medium-density residential land use designations, a single accessory dwelling unit is allowed as an accessory use to the principal structure, without being included in gross residential density calculations. All accessory dwelling units must comply with standards such as size, access, etc. as identified in Sec. 404.24.

d. **Reduction in Parking and Setback Requirements for Affordable Housing**

The Unified Land Development Code, Sec. 407.17, allows for a reduction in the number of parking spaces required for a mixed-use project or for uses that are located adjacent to one another and have different parking demands and operating hours. Sec. 407.18 provides for reductions in the required number of off-street parking spaces through documentation of reduced parking demand. Reduction in setback requirements for zero lot line housing is noted below under "allowance of flexible lot configurations, including zero lot line configurations, for affordable housing".

e. **The Allowance of Flexible Lot Configurations, including Zero Lot Line Configurations, for**

Affordable Housing

The unified Land Development Code, Chapter 403. Article III implements density-based zoning districts that allow for flexible lot sizes and better utilization of densities allowed within land uses. Chapter 404. Article II includes provisions to allow mixed unit types by right (single-family detached units and single-family attached units) in residential zoning districts, allowing for more density and a greater range of unit prices. This in turn creates opportunities to include affordable housing units in market-rate developments. Sec 403.07 and Sec. 407.67 allow for zero lot line units in single family districts, Traditional Neighborhood Developments, and Transit Oriented Developments. Minimum side setbacks do not apply to zero lot line developments provided the building spacing requirements of the Florida Building Code are met. Future Land Use Element Objective 1.8 in the Comprehensive Plan and ULDC Chapter 407. Article XVI provides for Cottage Neighborhoods intended in part to promote diverse and high-quality infill development within the Urban Cluster and a variety of housing types and sizes in the community that meet the needs of households with a diversity of incomes. Cottage neighborhoods may be on lots as small as one acre, with a minimum of four homes and a maximum of 15 homes allowed around any common green and may be incorporated within larger residential subdivisions. These neighborhoods provide for more efficient use of land through density bonuses of two times the maximum units per acre of the zoning district designation. Homes in Cottage Neighborhoods may be located individual plat lots or on a common ownership lot, and maybe within a single unit, duplex, or triplex buildings. Setbacks are applied from the overall property boundaries rather than from individual lots.

f. Modification of Street Requirements for Affordable Housing

The County has a range of street standards, depending on street volume, which is intended to minimize street width requirements. Sec. 407.141, ULDC, includes provision for flexibility in street design and less right-of-way required for developments that provide innovative plans. Cottage neighborhoods are provided for in Chapter 407. Article XVI, allows the option of common parking lots rather than private roads, drives, or alleys accessing individual homes, potentially reducing development and housing costs.

g. Development of an Inventory List of Locally Owned Public Lands Appropriate for Affordable Housing Use

Florida Statutes, Sec. 125.379, requires each county to prepare an inventory list every 3 years of all county-owned lands within its jurisdiction that are appropriate for use as affordable housing. The list is then reviewed and adopted by resolution at a public hearing. Housing Element Policy 1.1.8 in the Comprehensive Plan states that Alachua County will review surplus land in its possession for suitability for sale or donation to organizations that propose to develop affordable housing projects. An updated inventory list will be prepared and submitted in 2019. Support for development and growth near transportation hubs, major employers, and mixed-use centers. The Alachua County Comprehensive Plan provides for mixed-use, pedestrian- and bicycle-friendly communities in higher densities and intensities that are transit supportive and reduce the need to rely on a motor vehicle for mobility. These are provided for in Activity Centers designated by the Comprehensive Plan, and in Transit Oriented Developments (TODs) and Traditional Neighborhood Developments (TNDs) in areas designated for urban residential

development. To increase the variety of housing opportunities within walking distance of existing or future commercial and employment areas, residential uses in Activity Centers are allowable as part of mixed-use development in non-residential Future Land Use designations. A range of housing options is allowed in these developments, to provide opportunities for residents of various income levels to reside within the same community.

h. Increased Number of Attached Units

The Unified Land Development Code, Chapter 404. Article II, includes provisions to allow single-family attached units by right in residential zoning districts without restricting the number of units in a row that may be attached. Homes in Cottage Neighborhoods may be within single-unit, duplex, or triplex buildings.

i. Development Review Application Fee

The County Manager may waive development review application fees and charges to not-for-profit corporations that submit affordable housing projects. This policy is annually approved through the Alachua County fee schedule by the Board of County Commissioners.

j. Fee Reduction

Alachua County also offers a 50% reduction in building permit fees for properties with a homestead exemption (owner-occupied) and a Total Just (market) Value of less than \$50,000 as determined by Alachua County.
