Does this LHAP contain an interlocal agreement?	Yes
If yes, name of other local government(s)	Sarasota County

B. Purpose of the program:

- To meet the housing needs of the very low, low and moderate-income households;
- To expand production of and preserve affordable housing; and
- To further the housing element of the local government comprehensive plan specific to affordable housing.

C. Fiscal years covered by the Plan: 2019-2020, 2020-2021, 2021-2022

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through the development of the Consolidated Plan, which includes funding for the SHIP program. Eight (8) public meetings were conducted throughout the development of the Consolidated Plan. Public input was solicited from nonprofit housing, homeless, and special needs providers, public housing authorities, for profit developers, the business community, agencies representing minority groups and the community. The plan was advertised for a thirty-day public comment period.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time applications were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding described/listed here apply to all strategies unless otherwise stated:

All applications are accepted on a first qualified / first served basis. Exceptions will only be taken if necessary to meet a statutory requirement close to the expenditure deadline.

- J. Discrimination:** In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing.
- K. Support Services and Counseling:** Support services are available from various sources. Available support services may include but are not limited to: Homeownership Counseling (Pre and Post), Credit Counseling, Tenant Counseling, Foreclosure Counseling and Transportation.
- L. Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be that calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the median area purchase price established by the U.S. Treasury Department or as described above.

The methodology used is:

U.S. Treasury Department	x
Local HFA Numbers	

- M. Income Limits, Rent Limits and Affordability:** The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

“Affordable” means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household’s ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

- N. Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.
- O. Monitoring and First Right of Refusal:** In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of \$10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility

requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.

P. Administrative Budget: A line-item budget is attached as Exhibit A. The city/county finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: “A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan.”

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: “The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to \$350,000 may use up to 10 percent of program income for administrative costs.” The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.

B. Name of the Strategy: **Ongoing Review Process**

An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption.

Provide a description of the procedures used to implement this strategy:

City of Sarasota:

Each agenda item that goes to the City Commission is reviewed by the originator to determine if it increases the cost to housing. If it does, the agenda cover sheet that goes to the City Commission describes the cost per home. The committee also recommended that staff should provide information to advisory committees with information on how policies, procedures, ordinances, regulations or plan provisions that they are considering impact the cost of housing, along with the estimated cost to implement the provision.

Sarasota County:

That Sarasota County ensure that the County Commission considers, before adoption, policies, procedures, regulations or plan provisions that may increase the cost of housing.

C. Other Incentive Strategies Adopted:

City of Sarasota:

The modification of impact-fee requirements, including reduction or waiver of fees and alternative methods of fee payment for affordable housing:

- a. To continue allowing nonprofit housing organizations building housing for families with incomes below 100% of the Area Median Income remain eligible to receive a Temporary Certificate of Occupancy (Temporary CO) that allows the nonprofit organization to receive all final inspections and defer impact fee payments until the home is sold to the low-income homebuyer. The impact fees are paid when the home is sold, and the nonprofit organization receives their Final Certificate of Occupancy.
- b. To continue allowing nonprofit agencies that are building rental housing and promise to lease the property for no more than the fair market rent for a period of 10 years to remain eligible to receive a Temporary Certificate of Occupancy (Temporary CO) that allows the nonprofit organization to receive all final inspections and to defer impact fee payments and allows them to be paid when the property is leased to the first occupant. The impact fees are then paid when the home is leased, and the nonprofit organization receives their Final Certificate of Occupancy.
- c. To continue allowing low income families to receive a low interest loan from the County to enable them to pay the water and sewer capacity (impact) fees to connect to public water and sewer lines. This is available in the unincorporated county and the four municipalities.
- d. To continue to allow affordable housing projects funded through OHCD to include the cost of impact fees in the development costs and pay those fees using federal and / or state funds.
- e. During the next year, the City should study how impact fees are determined and assessed to see if there are ways to mitigate the cost of impact fees on affordable housing and to identify other tools and incentives that are available to make a positive impact on affordable housing.

The allowance of flexibility in densities for affordable housing:

- a. Implement provisions that allow for increased density for affordable housing to be granted administratively or by right, rather than making the developer go through a public hearing process;
- b. The City should consider additional density incentives; and
- c. Conditioning density and other structural bonuses such as height, lot coverage, FAR, and parking on use for long-term affordable housing is a tool that should be utilized by the City to incentivize workforce housing development.

The allowance of affordable accessory residential units in residential zoning districts:

- a. To increase the maximum size of accessory dwelling units from 600 square feet to 650 square feet; and
- b. The City should expand opportunities for accessory dwelling units.

The reduction of parking and setback requirements for affordable housing:

- a. The City should research ways to provide more flexibility in creating incentives to create more affordable housing units closer to walkable areas;
- b. The City should look to expand alternative parking strategies and setback reduction for affordable housing outside the downtown zone districts; and
- c. The City should offer structural bonuses such as density, height, lot coverage, FAR,

and parking close to employment centers.

The allowance of flexible lot configurations, including zero-lot line configurations for affordable housing:

- a. The City should explore additional flexible lot configurations; and
- b. The City should include additional building types that promote flexible lot configurations such as cottage courts.

The modification of street requirements for affordable housing:

- The City should promote reduced infrastructure costs with infill through a complete street program that reduces vehicular motor traffic.

The preparation of a printed inventory of locally owned public lands suitable for affordable housing:

- Identified lots to be designated as suitable for affordable housing.

The support of development near transportation hubs and major employment centers and mixed- use developments:

- a. That the development near transportation hubs, major employment centers and mixed- use development should be identified and supported with transit opportunities.
- b. Adaptive reuse of former commercial shopping centers should also be considered.

Other Affordable Housing Recommendations:

- a. The City of Sarasota accepts the recommendation that the AHAC or another citizen committee review the best practices and develop a comprehensive program to increase affordable housing opportunities for the City of Sarasota.
- b. Studies to help shape policy and perception related to opposition of affordable housing may be of benefit:
 1. Traffic – review peak hour and in and out movements at multi-family projects, post construction.
 2. Parking – review day and night parking.
 3. Compatibility – review height, design, density, setbacks, etc.
 4. Demographics – review population of children, retired persons, and other demographics.

- a. To continue allowing low income families to receive a low interest loan from the county to enable them to pay the water and sewer capacity (impact) fees to connect to public water and sewer lines. This is available in the unincorporated county and the 4 municipalities. Note: This program is for areas where utility lines have been extended, not for new construction.
- b. To continue to allow affordable housing projects funded through OHCD to include the cost of impact fees in the development costs and pay those fees using federal and / or state funds.

During the next Impact Fees and Mobility Fees review cycle, the County should study how impact fees are determined and assessed to see if there are ways to mitigate the impact of impact fees on affordable housing and to identify other tools that are available to make a positive impact on affordable housing.

The allowance of flexibility in densities for affordable housing:

- a. The County should study this topic further during the next year to see if there are additional incentives related to increased densities that could be implemented.
- b. Conditioning density and other structural bonuses such as height, lot coverage, floor area ratio, and parking on use for long-term affordable housing is a tool that should be utilized by the County to incentivize workforce housing development.

The allowance of affordable accessory residential units in residential zoning districts:

- a. To update the Sarasota County Comprehensive Plan to include policies that encourages the production of diversity in housing types and prices;
- b. The County's policy on accessory residential units should be reviewed to see if there are ways to create additional affordable housing opportunities; and
- c. The County should review its zoning code to determine if changes could be made to increase additional affordable housing opportunities.

The reduction of parking and setback requirements for affordable housing:

- a. To continue to allow alternative parking plans to reduce required parking to be approved by the Zoning Administrator;
- b. The County's policies on parking and setback requirements should be reviewed to see if there are ways to create additional affordable housing opportunities.
- c. The County should offer structural bonuses such as density, height, lot coverage, floor area ratio, and parking close to employment centers.

The allowance of flexible lot configurations, including zero-lot line configurations for affordable housing:

- The County's policies on flexible lot configurations, including zero-lot configurations,

should be reviewed to see if there are ways to create additional affordable housing opportunities.

- Identified escheated lots be designated as suitable for affordable housing.

- b. Adaptive reuse of former commercial shopping centers should also be considered.
Other Affordable Housing Recommendations:
- d. Sarasota County accepts the recommendation that the AHAC or another citizen committee review the best practices and develop a comprehensive program to increase affordable housing opportunities for Sarasota County. The AHAC is convened a minimum of every three years to do this task.
- e. Studies to help shape policy and perception related to opposition of affordable housing may be of benefit:
 1. Traffic – review peak hour and in and out movements at multi-family projects, post construction.
