B. Purpose of the program:
- To meet the housing needs of the very low, low and moderate-income households;
- To expand production of and preserve affordable housing; and
• To further the housing element of the local government comprehensive plan specific to affordable housing.

The program area covered by this LHAP is the whole of Volusia County, except within the municipal boundaries of the cities of Daytona Beach and Deltona.

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through face to face meetings with housing providers, social service providers and local lenders and neighborhood associations. Public input was solicited through the local newspaper in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability.

H. Advertising and Outreach: SHIP funding availability shall be advertised in a newspaper of general circulation and periodicals serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list is established only for the Housing Rehabilitation, Demolition and Reconstruction, Emergency Repairs and Wind Hazard Mitigation strategies. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time applications were submitted and approved as well as any established funding priorities as described in this plan.

The following priorities for funding described/listed here apply to all strategies unless otherwise stated:

1. Very-low income household with special needs
2. Very-low income household
3. Low income household with special needs
4. Low-income household

J. Discrimination: In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, handicap, or familial status in the award application process.
for eligible housing.

**K. Support Services and Counseling:** Support services are available from various sources. Available support services may include but are not limited to: Homeownership Counseling (Pre and Post), Credit Counseling, and Home Maintenance education.

**L. Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the median area purchase price established by the U.S. Treasury Department or as described above.

**M. Income Limits, Rent Limits and Affordability:** The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

“Affordable” means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household’s ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

**N. Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.

**O. Monitoring and First Right of Refusal:** In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of $10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.
P. **Administrative Budget:** A line-item budget is attached as Exhibit A. The city/county finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: “A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan.”

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: “The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to $350,000 may use up to 10 percent of program income for administrative costs.” The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.

Q. **Program Administration:** Administration of the local housing assistance plan will be performed by:

associated with rehabilitation of the home including permits, fees, site development, infrastructure improvements, other eligible rehabilitation related and project delivery costs.

c. Income Categories to be served: Very low, low and moderate

d. Maximum award: $71,500 (includes up to $1,500 of project delivery costs)

e. Terms:

1. Repayment loan/deferred loan/grant: The assistance is provided by a loan secured by a recorded mortgage and note; project delivery costs are provided as a grant. The county reviews all applicants to determine their qualification for a repayment loan, based on a review of the estimated project cost and the homeowner’s income, debt and expenses in compliance with approved county loan affordability policies. If the review determines the homeowner cannot afford to repay the project cost, a deferred payment loan is used.

2. Interest Rate: 0%

3. Years in loan term: 5-30 years based on the total project cost compared to the owner’s ability to repay. The county determines the loan term based on the shortest loan term (in five year increments) that produces an affordable payment, or the loan is deferred.

4. Forgiveness:

   a) If the homeowner has a repayment loan, there is no forgiveness

   b) If the homeowner qualifies for a deferred payment loan, the loan balance is forgiven an amount annually. The annual forgiveness amount is based on the original loan term and the original loan amount (e.g., $20,000 loan, 10 year term, forgiven 1/10 annually = $2,000 annual forgiveness)

5. Repayment:

   a) If the homeowner has a repayment loan, the loan amount is repaid in equal monthly installments amortized over the loan term;

   b) If the homeowner qualifies for a deferred payment loan, the county will review household income every three years to re-evaluate the household’s ability to repay the unforgiven balance. If determined to be qualified to repay the unforgiven balance, the homeowner will be required to execute a loan modification agreement. Provided however, households whose income at the time of the initial loan consisted solely of fixed income (including but not limited to Social Security, SSI, disability, pensions) will not be re-evaluated for the ability to repay and their loan will remain a deferred payment loan.

6. Default: The homeowner is in default if any of the following occur during the loan term:

   a) Homeowner ceases residing in the home as their primary residence, including due to the death of the homeowner. In the event of the death of the original owner during the deferred or repayment loan term, the beneficiary or heir with title or right to title to the property may apply to the county within 90 days of the borrower’s death to assume the loan.

   b) Homeowner leases or rents the home

   c) Home is refinanced without the county’s written consent

   d) Home is sold before the end of the loan term

   e) Homeowner violates another provision of their mortgage or note, or defaults on a superior
mortgage
If the homeowner defaults, the county may take action under its mortgage, including foreclosing on the county’s mortgage.

f. Recipient Selection Criteria: The recipient selection process is a two-step process: pre-application and full application. All interested applicants complete the Housing Rehabilitation pre-application which allows for self-identification of the household’s income and requested repairs.

The pre-application is reviewed to determine if the applicant and their home meets the initial eligibility criteria. The initial eligibility review includes the following criteria:
1. Location of home is within County’s SHIP program area
2. Ownership of home as shown by Volusia County Property Appraiser and clerk of courts records match applicant name and the applicant has owned and occupied the home as their primary residence for a minimum of one year under a recorded instrument conveying fee simple title and has documentation of homestead exemption. An applicant that has a life estate may apply only if the owner of the future interest (remainder) also agrees to sign all agreements, mortgage and note.
3. Home’s current just value as determined by the Volusia County Property Appraiser does not exceed SHIP value limit
4. The balance of existing secured debt does not exceed the home’s current just value
5. The repair requested is not merely a non-essential improvement
6. Applicant is current on Volusia County taxes, is not in foreclosure or does not have a federal tax lien
7. Estimated household income does not exceed SHIP limits
8. Applicants who have been previously assisted by the county with housing rehabilitation or homebuyer assistance are not eligible to apply for additional housing rehabilitation for their home.
9. The home will be evaluated for economic feasibility and structural feasibility of the proposed rehabilitation, and the applicant may be denied assistance or moved to the Reconstruction strategy if the evaluation determines that the cost exceeds county standards. If HOME funds will be used in combination with SHIP funds, an environmental review will be performed which may impact eligibility.

Pre-applications that pass the initial eligibility review are placed on the Housing Rehabilitation waiting list. Pre-applicants on the Housing Rehabilitation waiting list are selected based on the date placed on the waiting list and the priorities for funding described on page 4.

g. Sponsor Selection Criteria: N/A

h. Additional Information:
1. The county uses a whole house approach, in which the entire home is reviewed to determine compliance with rehabilitation standards, and the county is responsible to develop the scope of work. Items not in compliance will be included in the scope of work.
2. An approved applicant must attend the Volusia County Home Maintenance course prior to the commencement of the rehabilitation work unless a waiver is granted by the county. A minimal registration fee may be paid by the applicant.
D. Demolition and Reconstruction

a. Summary: The Demolition and Reconstruction strategy provides funds to demolish an eligible sub-standard owner-occupied home and reconstruct another home of the same approximate size and bedroom number on the same lot. The reconstruction strategy is considered when the evaluation of the structural elements of the home determines that more than 60% must be replaced. Funds can be used for all hard and soft costs associated with demolition and reconstruction of the home including permits, fees, site development, infrastructure improvements, other eligible construction related, project delivery costs, and the refinance of the balance of an existing mortgage on the home if the principal balance is $10,000 or less.

c. Income Categories to be served: Very low, low and moderate

d. Maximum award: $151,500 (includes up to $1,500 of project delivery costs)

e. Terms:
   1. Repayment loan/deferred loan/grant: The assistance is provided by a loan secured by a recorded mortgage and note; project delivery costs are provided as a grant. The county reviews all applicants to determine their qualification for a repayment loan, based on a review of the estimated project cost and the homeowner’s income and expenses in compliance with approved county loan affordability policies. If the review determines the homeowner cannot afford to repay the project cost, a deferred payment loan is used.
   2. Interest Rate: 0%
   3. Years in loan term: 30 years
   4. Forgiveness:
      a) If the homeowner has a repayment loan, the loan balance is not subject to forgiveness
      b) If the homeowner qualifies for a deferred payment loan, the loan balance is forgiven annually 1/30th of the original loan amount
   5. Repayment:
      a) If the homeowner has a repayment loan, the loan amount is repaid in equal monthly installments amortized over 30 years;
      b) If the homeowner qualifies for a deferred payment loan, the county will review household income every three years to re-evaluate the household’s ability to repay the unforgiven balance. If determined to be qualified to repay the unforgiven balance, the homeowner will be required to execute a loan modification agreement. Provided however, households whose income at the time of the initial loan consisted solely of fixed income (including but not limited to Social Security, SSI, disability, pensions) will not be re-evaluated for the ability to repay and their loan will remain a deferred payment loan.
   6. Default: The homeowner is in default if any of the following occur during the loan term:
      a) Homeowner ceases residing in the home as their primary residence, including the death of the homeowner. In the event of death of the original owner during the deferred or repayment loan term, the beneficiary or heir with title or right to title to the property may apply within 90 days of
the borrower’s death to assume the loan.

b) Homeowner leases or rents the home

c) Home is refinanced without the county’s written consent

d) Home is sold before the end of the loan term

If the homeowner defaults, the county may take action under its mortgage, including foreclosing on the county’s mortgage.

f. Recipient Selection Criteria: The recipient selection process is a two-step process: pre-application and full application. All interested applicants complete the Housing Rehabilitation pre-application which allows for self-identification of the household’s income and requested repairs.

The pre-application is reviewed to determine if the applicant and their home meets the initial eligibility criteria. The initial eligibility review includes the following criteria:

1. Location of home is within County’s SHIP program area

2. Ownership of home as shown by Volusia County Property Appraiser and clerk of courts records matches applicant name and the applicant has owned and occupied the home as their primary residence for a minimum of one year under a recorded instrument conveying fee simple title and has documentation of homestead exemption. An applicant that has a life estate may apply only if the owner of the future interest (remainder) also agrees to sign all agreements, mortgage and note.

3. Home’s current just value as determined by the Volusia County Property Appraiser does not exceed the SHIP value limit

4. The balance of the existing secured debt exceeds $10,000

5. Repair requested is not merely a non-essential improvement

6. Applicant is current on Volusia County taxes, is not in foreclosure and does not have a federal tax lien.

7. Estimated household income does not exceed SHIP limits

8. Applicants who have been previously assisted by the county with housing rehabilitation or homebuyer assistance are not eligible to apply for demolition and reconstruction.

9. The home will be evaluated for economic and structural feasibility to provide reconstruction, and the applicant may be denied if the evaluation determines that the cost exceeds county standards and award amounts. If HOME funds will be used in combined with SHIP funds, an environmental review will be performed which may impact eligibility.

Pre-applications that pass the initial eligibility review are placed on the Housing Rehabilitation waiting list. Community Assistance Division (CAD) may initially place the pre-application on the Demolition and Reconstruction waiting list due to the age and visible deterioration of the home. Pre-applicants on the Demolition and Reconstruction waiting list are selected based on the date they are placed on the list in addition to the priorities for funding described on page 4 of the LHAP.

g. Sponsor Selection Criteria: N/A

h. Additional Information:

1. The county uses a whole house approach in which the entire home is reviewed to determine compliance with rehabilitation standards, and the county is solely responsible to develop the scope of work.
2. An approved applicant must attend the Volusia County Home Maintenance course prior to the commencement of the reconstruction work unless a waiver is granted by the county. A minimal registration fee is paid by the applicant.

3. This strategy can also be used to pay up to $5,000 for impact fees charged in connection with the replacement of a pre-1994 manufactured home with a new manufactured home.

E. Emergency Repairs

<table>
<thead>
<tr>
<th>Code 6</th>
</tr>
</thead>
</table>

a. Summary: The Emergency Repairs strategy provides funds to replace or repair certain defined sub-standard systems found in an eligible owner-occupied home. This strategy applies when the eligible home is otherwise in standard condition, except for one or more of the following sub-standard conditions:

- Roof is leaking and/or has exceeded its useful life
- An HVAC system is not present, not functioning or has exceeded its useful life
- Sanitary septic system is not functioning or has exceeded its useful life
- Potable water well is not functioning or has exceeded its useful life
- Home is eligible to hook-up to municipal water and/or sewer system
- Accessibility improvements to assist a household member with special needs, with a disabling condition or that is elderly remain in the home

Funds can be used for all hard and soft costs associated with the repair of the home including permits, fees, other eligible rehabilitation related costs and project delivery costs.

c. Income Categories to be served: Very low, low and moderate

d. Maximum award: $26,000 (includes up to $1,000 of project delivery costs)

e. Terms:

1. Repayment loan/deferred loan/grant:
   a) Projects costing $10,000 or less and project delivery costs are provided as a grant

b) Projects costing between $10,001 and $25,000 are provided as a loan secured by a recorded mortgage and note. The county reviews all applicants to determine their qualification for a repayment loan, based on a review of the project cost and the homeowner’s income and expenses in compliance with approved county loan affordability policies. If the review determines the homeowner cannot afford to repay the project cost, a deferred payment loan is used.

2. Interest Rate: 0%
   Years in loan term: 5-15 years based on owner’s ability to repay

3. Forgiveness:
   a) If the homeowner has a repayment loan, the loan balance is not subject to forgiveness
   b) If the homeowner qualifies for a deferred payment loan, the loan balance is forgiven annually an amount. The annual forgiveness amount is based on the original loan term and the original loan amount (e.g., $20,000 loan, 10 year term, forgiven 1/10 annually = $2,000 annual forgiveness)
4. Repayment:
   a) If the homeowner has a repayment loan, the loan amount is repaid in equal monthly installments amortized over the loan term;
   b) If the homeowner qualifies for a deferred payment loan, the county will review household income every three years to re-evaluate the household’s ability to repay the unforgiven balance. If determined to be qualified to repay the unforgiven balance, the homeowner will be required to execute a loan modification agreement. Provided however, households whose income at the time of the initial loan consisted solely of fixed income (including but not limited to Social Security, SSI, disability, pensions) will not be re-evaluated for the ability to repay and their loan will remain a deferred payment loan.

5. Default: The homeowner is in default if any of the following occur during the loan term:
   a) Homeowner ceases residing in the home as their primary residence, including the death of the homeowner. In the event of the death of the original owner during the deferred or repayment loan period, the beneficiary or heir with title or right to title to the property may apply to the county within 90 days of the borrower’s death to assume the loan.
   b) Homeowner leases or rents the home
   c) Home is refinanced without the county’s written consent
   d) Home is sold before the end of the loan term
   e) Homeowner violates another provision of their mortgage or note, or a superior mortgage

   If the homeowner defaults, the county may take action under its mortgage, including foreclosing on the county’s mortgage.

f. Recipient Selection Criteria: The recipient selection process is a two-step process: pre-application and full application. All interested applicants complete the Housing Rehabilitation pre-application which allows for self-identification of the household’s income and requested repairs.

The pre-application is reviewed to determine if the applicant and their home meets the initial eligibility criteria. The initial eligibility review includes the following criteria:
1. Location of home is within County’s SHIP program area
2. Ownership of home as shown by Volusia County Property Appraiser and clerk of courts records matches applicant name, and the applicant has owned and occupied the home as their primary residence for a minimum of one year under a recorded instrument conveying fee simple title and has documentation of homestead exemption. An applicant that has a life estate may apply only if the owner of the future interest (remainder) also agrees to sign all agreements, mortgage and note.
3. Home’s current appraised just value as determined by the Volusia County Property Appraiser does not exceed SHIP value limit
4. Repair requested is not merely cosmetic improvement
5. Applicant is current on Volusia County taxes, is not in foreclosure or does not have a federal tax lien.
6. Estimated household income does not exceed SHIP income limits
7. Applicants who have been previously assisted by the county with housing rehabilitation or homebuyer assistance are not eligible to apply for emergency repairs.

Pre-applications that pass the initial eligibility review are placed on the Emergency Repairs waiting list. Pre-applicants on the Emergency Repairs waiting list are selected based on the date placed on the list in
addition to the priorities for funding described on page 4 of this LHAP.

g. Sponsor Selection Criteria: N/A

h. Additional Information:
   1. The county uses a whole house approach, in which the entire home is reviewed to determine compliance with rehabilitation standards, and the county is responsible to develop the scope of work. If an applicant chooses to address only the emergency conditions defined in this strategy, the County will only include the identified emergency conditions in the scope of work. Any other identified substandard conditions will not be included in the scope of work, and the applicant will be placed back on the rehabilitation waiting list to address the other substandard conditions.

III. LHAP Incentive Strategies

In addition to the required Incentive Strategy A and Strategy B, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.:

A. Name of the Strategy: Expedited Permitting
   Permits as defined in s. 163.3177 (6) (f) (3) for affordable housing projects are expedited to a greater degree than other projects.

   Provide a description of the procedures used to implement this strategy:

   1. Building permits are currently expedited by the County’s Building and Zoning Division for homeowner rehabilitation and single-family homebuyer construction projects located in the County’s jurisdiction. The Community Assistance Division identifies these projects as affordable housing using an affordable housing project sheet with property location information. The Community Assistance Director must sign and approve before submission for permit. These permits are given preference by the Building and Zoning Division.

   2. A housing ombudsman team has been established in the County’s Growth and Resource
Department whose primary role is to assist developers of residential developments and shepherd both the applicant and application through the review process.

3. The affordable housing development process is being promoted to the intended audience, and shared with the development community.

B. Name of the Strategy: Ongoing Review Process
An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption.

Provide a description of the procedures used to implement this strategy:
1. The Volusia County Comprehensive Plan has incorporated affordable housing goals in its Housing Element. A review of the Comprehensive Plan is held biannually for the public and staff comments.
2. The Development Review Committee (DRC) is responsible to review prior to adoption or enactment those policies, procedures, ordinances, regulations and Comprehensive Plan provisions that have been identified by staff as having a potential to impact the cost of housing.
3. The items qualifying as requiring review of potential impact to the cost of housing include, but are not limited to:
   • Changes to the definition or classifications of future land use
   • Changes to the definition or classifications of zoning
   • Changes to the definition or classifications of allowable density
   • Changes to the definition or classifications of minimum dimensional requirements
   • Changes to the definition or classifications of land development procedures
   • Changes to the impact fee schedule
   • Other changes that may increase the cost of housing

C. Other Incentive Strategies Adopted:
1. Density Bonus
A density bonus for affordable housing can be provided through a planned unit development process (PUD) as defined in the County’s Comprehensive Plan.

Provide a description of the procedures used to implement this strategy:
   a. The Planned Unit Development (PUD) rezoning process currently available can be utilized to allow lot size reductions for eligible affordable housing projects. Density bonuses are allowed through Comprehensive Plan policies 1.3.3.3 and 5.1.6.2. Policy 1.3.3.3 provides a density increase per future land use designation for such housing projects that are certified by the Community Services Department and processed as a planned unit development. Policy 5.1.6.2 provides for a 10% density increase for projects that provide low income housing needs.

2. Inventory of Surplus County-owned land suitable for affordable housing
An inventory of County-owned surplus land that has been determined to be suitable for
affordable housing is adopted by Volusia County Council on a periodic basis and at least every
three years. The parcels on the list are available to support affordable housing in accordance
with the provisions of s. 125.379, F.S.

Provide a description of the procedures used to implement this strategy:

a. Community Assistance Division and the Growth & Resource Management Department are
   jointly responsible for the creation of the inventory, and obtaining County Council approval.

b. The inventory is posted on the County’s website.

c. Policies and procedures are in place to advise interested non-profits, and other parties about
   the inventory.

A. Administrative Budget for each fiscal year covered in the Plan.

B. Timeline for Estimated Encumbrance and Expenditure.

C. Housing Delivery Goals Chart (HDGC) For Each Fiscal Year Covered in the plan.

<tr>
<th>Fiscal Year</th>
<th>Encumbered</th>

<th>1st Year AR</th>
<th>2nd Year AR</th>
<th>Closeout AR</th>
</tr>
</thead>
</table>

<th>2nd Year AR Not Submitted</th>
<th>Closeout AR Not Submitted</th>
</tr>
</thead>
</table>

Requests for Expenditure Extensions (close-out year ONLY) must be received by FHFC by June 15 of the year in which funds are required to be expended. The extension request shall be emailed to robert.dearduff@floridahousing.org and terry.auringer@floridahousing.org and include:

1. A statement that“(city/county) requests an extension to the expenditure deadline for fiscal year _________________.
2. The amount of funds that is not expended.
3. The amount of funds that is not encumbered or has been recaptured.
4. A detailed plan of how/when the money will be expended.

Note: an extension to the expenditure deadline (June 30) does not relieve the requirement to submit (September 15) the annual report online detailing all funds that have been expended. Please email terry.auringer@floridahousing.org when you are ready to “submit” the AR.

Other Key Deadlines:

AHAC reports are due for each local government the same year as the local government’s LHAP being submitted. Local governments receiving the minimum or less allocation are not required to report.
