Florida Housing Finance Corporation, 6-4-2019

NOTES:

- Damage estimates are based on the FEMA Housing Assistance Program dataset of 12 April 2019 provided through the OpenFEMA portal.
- Column B (Total Units in County) does not include seasonal units. However, damage data does include seasonal and second homes, but based on an earlier FEMA dataset, the portion of these units is likely to be extremely small.
- Funding in both Bay and Leon counties is split between the counties and SHIP-eligible cities (Panama City and Tallahassee) based on estimated % of damaged units in each area.
