**Subject:** comment on Elderly Transformative Preservation Set-aside

I am very interested in your plans to do an RFA this year for Elderly Transformative Preservation. After reviewing the Outline of Proposed Application Criteria issued 6.2.14, I have the following comment:

Regarding proximity to services and proximity to other FHFC properties: these properties are already in existence and therefore cannot move to another site that might meet the requirements. I propose that you strike any reference to proximity in the RFA, when issued.
