Nancy: We were just looking at the definition of Local Support, I think that's the topic, and wanted to be sure that contributions from local foundations, such as Dr. Phillips Charities would count towards the tie breaker, in the event that it comes to that. When we put in our comments on the RFA, for our original funding on Phase One, that was one of our comments. When Clara and I went back and looked at the final RFA on that round, it was worded exactly the same way that this one is, so we are assuming that a contribution or a "soft" loan from a foundation, would count. It certainly shows support from the local community and it improves leverage on the State's resources, which I believe is part of the motivation for this category. But if that is not the case and the wording needs to be changed, then we would like to add this change to our original letter.

Have a great weekend!
