Subject: RFA 2017-102

At this point there is only a draft available for RFA 2017-102 dated 12/12 2016. If I am correct this is a re-write from the last official RFA which dates back to late 2015. The draft contains the following:
*“To receive points under this section, the Applicant must describe Local Government initiatives or community redevelopment plans completed and adopted on or before **March 1, 2015**, by the appointed or elected body of the general Local Government with the authority to regulate the use of the subject site, or an instrumentality thereof (e.g., City, County, Community Redevelopment Agency).”*

Obviously this date will change before the final RFA and I understand the objective to make sure that any redevelopment or revitalization plan be in place and in force prior to application deadline. My request is that as you consider the timeframe that will be established in the final RFA, that date should be by or before the RFA due date. According to the Tentative 2016/2017 Funding Amounts/Timelines dated 1/13/2017, that would be 3/23/2017. If for some reason that date is unacceptable, then I would suggest that the date be by or before the RFA Issue date or 2/22/2017.

Thank you for your consideration.
