**Subject:** RFA 2020-202

Hi Marissa-

We are encountering COVID related “reduced service” public transportation timetables in multiple counties. I realize the proposed language/definitions for the RFA contemplate COVID issues relating to bus systems, but that seems more applicable if a route is taken offline altogether. I think what we are seeing, as recently as this week, is an overall reduction in stops in some places and a longer time between stops in others.

We would propose that the required minimum amount of stops be reduced from 18 to 12 for Large Counties this year. Or there may be another solution you have already thought about that would also help.

Thank you.
