Subject: Comments - RFA 2021-201

Mimecast Attachment Protection has deemed this file to be safe, but always exercise caution when opening files.

It has come to our attention that the SunRail goal provides an inequitable allocation of Housing Credits. The SunRail only operates in 3 of 29 medium counties, Seminole, Volusia, and Osceola. Additionally, high land prices and little developable/entitled property within each SunRail station buffer may eliminate certain counties from participating in the RFA, further skewing funds towards 1 or 2 counties. These market conditions coupled with rising construction costs could also result in financially challenged projects.

We expect the purpose of the SunRail goal is to provide better transportation options for tenants. If that is the case, it's worth noting that SunRail ridership numbers are well below expectations and extremely low in comparison to Lynx, the public transportation provider for Seminole, Orange, and Osceola Counties, 3 of the 4 counties SunRail operates in. Between 2019 and 2020, Lynx had an average monthly ridership of 1,630,627 persons in those 3 counties. Over approximately the same period, SunRail had an average monthly ridership of 124,589 persons in 4 counties. The low ridership is unlikely to do with lack of development as the majority of SunRail stations are surrounded by dense development. Perhaps there are better transportation options for area residents.

Based on this information, we feel it makes good public policy to remove the SunRail goal and consider replacing it with a goal for Medium County developments with a higher number of transit service points than the minimum.

September 2018:	19 Weekdays	5 Saturdays	6 Sundays
September 2019:	20 Weekdays	4 Saturdays	6 Sundays

LYNX ridership decreased by 271K, or 13.1%, compared to September 2018. System-wide average weekday riders decreased by 15.1% year-to-date. *There was an issue with farebox data which is being evaluated by the software vendor.

LYMMO ridership decreased by about 35K, or 13.1%, compared to September 2018. Average weekday ridership for LYMMO was down 28.2% in September 2019. Ridership decrease is attributed to the closure of the Orlando Union Rescue Mission, 410 W Central Blvd. *There was also an issue with farebox data, which is being evaluated by the software vendor.

Fixed Route ridership decreased by 245K, or 13.1%, compared to September 2018. Average daily ridership decreased by 15.9% compared to the same time period last year. *Part of this decrease may be associated with the farebox data issue, which is being evaluated by the software vendor. Nationwide bus ridership has seen the largest decrease among transit modes, according to American Public Transportation Association (APTA). This is primarily due to the increased use of rideshare programs, and the low unemployment rate.

NeighborLink ridership increased by about 1K, or 16.8%, compared to September 2018. This is due to inaccurate ridership reporting from the previous year, which has been corrected.

ACCESS LYNX ridership increased by 1K, or 1.4% when compared to September 2018. This is on par with a general increased use of paratransit as more people become eligible for this service.

Vanpool ridership increased by about 6K, or 21.6%, compared to September 2018.

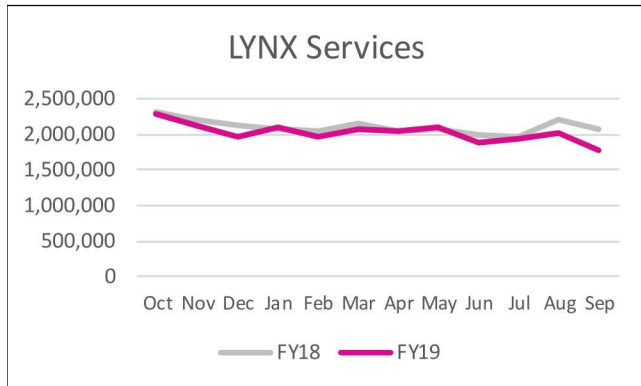

According to the U.S. Energy Information Administration, the average price of gasoline in the U.S. was \$2.90/gallon in September 2018 and \$2.65/gallon in September 2019.

September 2019 Service Performance Report

Definitions of Metrics Used on the Monthly Performance Data Sheets

Ridership – The number of trips taken by people using a public transportation system in a given time period.

Passengers per Trip – The average number of passengers who ride on a revenue trip.

On-Time Performance – Refers to the level of success of the service operating according to the published schedule (LYNX defines a bus as on-time if it falls within 0 minutes early to five (5) minutes late of the published schedule).

Farebox Recovery – The percent of a trip's operating costs recovered through passenger fares.

National Transit Database (NTD) Reportable Accidents – A safety or security event occurring on transit right-of-way or infrastructure, at a transit revenue facility, at a transit maintenance facility or rail yard, during a transit related maintenance activity or involving a transit revenue vehicle that results in one or more of the following conditions:

- A fatality confirmed within 30 days of the event
- An injury requiring immediate medical attention away from the scene for one or more person
- Property damage equal to or exceeding \$25,000
- Collisions involving transit revenue vehicles that require towing away from the scene for a transit roadway vehicle or other non-transit roadway vehicle
- An evacuation for life safety reasons

5

Complaints per 100,000 Miles – Total number of complaints received based off of every 100,000 vehicle miles.

Total Trips Scheduled – Number of vehicle revenue trips scheduled to operate for the month.

Percentage of Scheduled Trips Operated – Percentage of the total of the revenue trips that were actually operated for the month compared to the number that were scheduled to operate.

Fleet Availability – Shows the extent to which the bus vehicle fleet is available for revenue-earning work.

Preventative Maintenance Completed On Time – Percentage of the total number of scheduled preventive maintenance inspections that were completed on time.

Collected Fares – Percentage of fares collected from passengers to use the service.

SYSTEM TOTAL	52,400	40,055	-23.6%						

LYNX ridership decreased by 1.6M, or 60.4%, compared to September 2019. System-wide average weekday riders decreased by 23.6% year-to-date.

LYMMO ridership decreased by about 18K, or 29.1%, compared to September 2019. Average weekday ridership for LYMMO was down 11.4% in September 2020. Ridership decrease is attributed the COVID-19 pandemic.

Fixed Route ridership decreased by 1.6M, or 62.5%, compared to September 2019. Average daily ridership decreased by 23.2% compared to the same time period last year. The COVID-19 pandemic is responsible for decreases in ridership.

NeighborLink ridership decreased by about 4K, or 44.1%, compared to September 2019. This is primarily due to the COVID-19 pandemic.

ACCESS LYNX ridership decreased by 17K, or 29.0% when compared to September 2019. COVID-19 is responsible for a decrease in ridership.

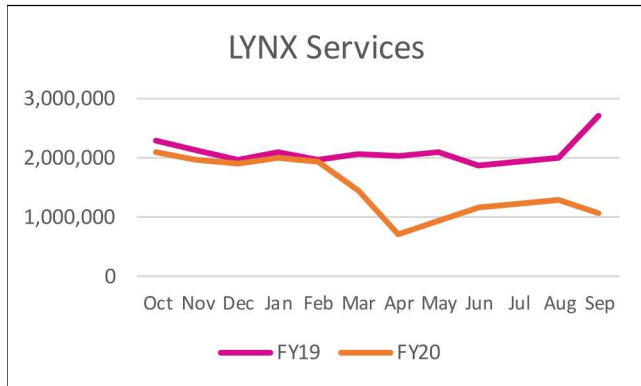

Vanpool ridership decreased by 6K, or 17.0%, compared to September 2019. COVID-19 is responsible for a decrease in ridership.

*According to the U.S. Energy Information Administration, the average price of gasoline in the U.S. was \$2.65/gallon in September 2019 and \$2.30/gallon in September 2020. Historically, low gas prices can result in lower public transit ridership.

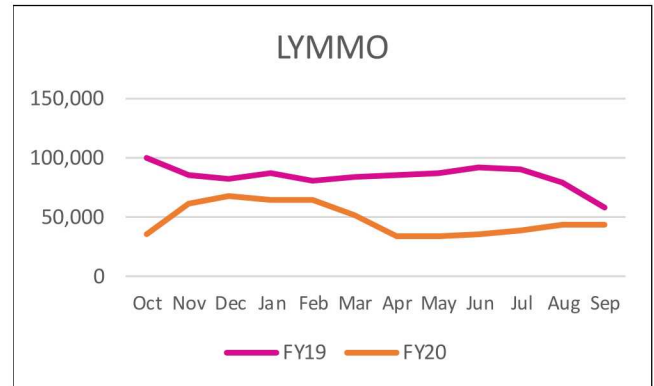

September 2020 Service Performance Report

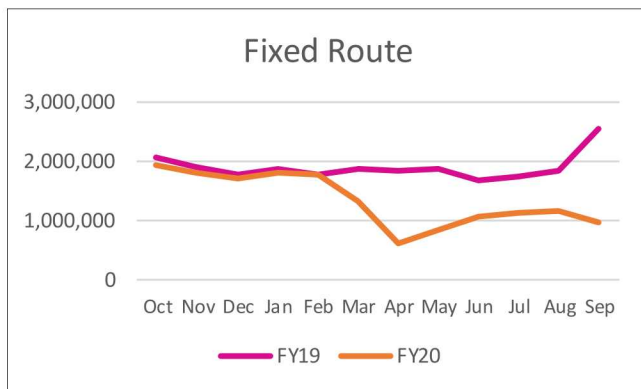

MONTHLY RIDERSHIP TRENDS BY MODE

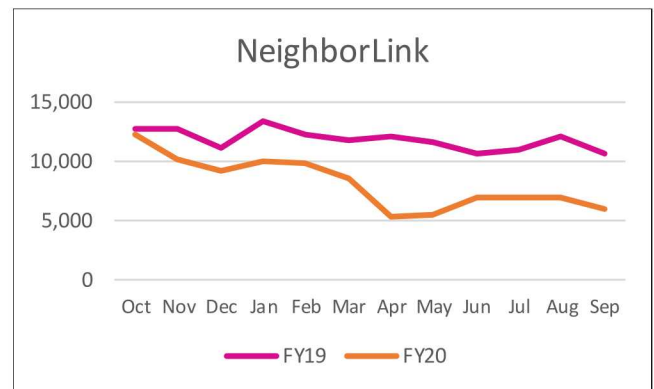

LYNX ridership decreased by 60.4% compared to the same time last year. Average weekday riders decreased by 23.6%.

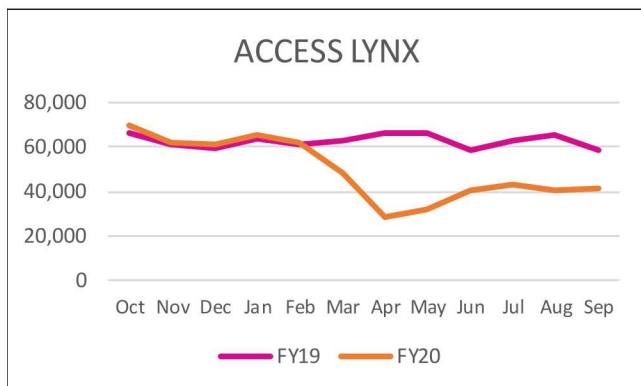

LYMMO ridership decreased by 29.1% compared to the same time last year. Average weekday riders increased by 11.4%.

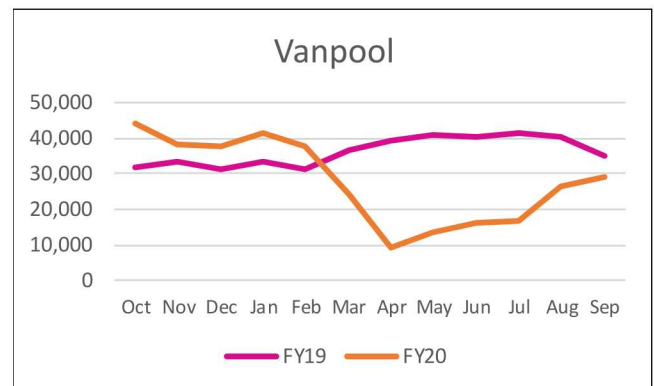

Fixed route ridership decreased 62.5% compared to September 2019. Average weekday riders decreased by 23.2%.

NeighborLink ridership decreased 44.1% compared to September 2019. Average daily riders also decreased by 44.1%.

ACCESS LYNX saw a 29.0% decrease over last year. Average daily riders decreased by 30.7%.

Vanpool ridership decreased by 17.0% compared to September 2019. Average daily riders decreased by 30.5%.

September 2020 Service Performance Report

Definitions of Metrics Used on the Monthly Performance Data Sheets

Ridership – The number of trips taken by people using a public transportation system in a given time period.

Passengers per Trip – The average number of passengers who ride on a revenue trip.

On-Time Performance – Refers to the level of success of the service operating according to the published schedule (LYNX defines a bus as on-time if it falls within 0 minutes early to five (5) minutes late of the published schedule).

Farebox Recovery – The percent of a trip's operating costs recovered through passenger fares.

National Transit Database (NTD) Reportable Accidents – A safety or security event occurring on transit right-of-way or infrastructure, at a transit revenue facility, at a transit maintenance facility or rail yard, during a transit related maintenance activity or involving a transit revenue vehicle that results in one or more of the following conditions:

- A fatality confirmed within 30 days of the event
- An injury requiring immediate medical attention away from the scene for one or more person
- Property damage equal to or exceeding \$25,000
- Collisions involving transit revenue vehicles that require towing away from the scene for a transit roadway vehicle or other non-transit roadway vehicle
- An evacuation for life safety reasons

5

Complaints per 100,000 Miles – Total number of complaints received based off of every 100,000 vehicle miles.

Total Trips Scheduled – Number of vehicle revenue trips scheduled to operate for the month.

Percentage of Scheduled Trips Operated – Percentage of the total of the revenue trips that were actually operated for the month compared to the number that were scheduled to operate.

Fleet Availability – Shows the extent to which the bus vehicle fleet is available for revenue-earning work.

Preventative Maintenance Completed On Time – Percentage of the total number of scheduled preventive maintenance inspections that were completed on time.

Collected Fares – Percentage of fares collected from passengers to use the service.
