

Jean,

As always, thank you for the Corporation's receptivity to stakeholder input as it works to develop new programs in response to the opportunities Live Local is providing.

I am writing in reference to RFA 2024-215 Live Local SAIL Financing For Developments Near Military Installations. Please expand the allowable distance from the main gate to at least 10 miles. Military crash zone requirements, limiting the development of multifamily housing near airfields, make identifying developable land within a five mile radius of an air station nearly impossible.

Please also do not require that the housing be in the same County as the installation. An arbitrary county line does not impact the proximity or quality of the location of the housing – to either the military installation or community amenities.

Thank you.
